<sup>(a)</sup> Represents the add-back to operating income to reflect the hypothetical interest expense we would incur if the property under our operating leases were owned or accounted for as finance leases. Calculated using the discount rate for each lease and recorded as a component of rent expense within SG&A expense.

<sup>(b)</sup> Calculated using the effective tax rate for continuing operations.

<sup>(c)</sup> Total short-term and long-term operating lease liabilities included within Accrued and Other Current Liabilities and Noncurrent Operating Lease Liabilities, respectively.

<sup>(d)</sup> Average based on the invested capital at the end of the current period and the invested capital at the end of the comparable prior period.

<sup>(e)</sup> The effective tax rate for the trailing twelve months ended November 2, 2019, August 3, 2019, May 4, 2019 and February 2, 2019 includes discrete tax benefits of the Tax Cuts and Jobs Act (Tax Act).
