Notice of 2019 annual meeting of shareholders

Wednesday, June 12, 2019

9:00 a.m. Eastern Daylight Time

**Marriott Columbus University Area located at 3100 Olentangy River Road,
Columbus, Ohio 43202**

To our shareholders,

You are invited to attend Target Corporation's 2019 annual meeting of shareholders (Annual Meeting) to be held at Marriott Columbus University Area located at 3100 Olentangy River Road, Columbus, Ohio 43202 on Wednesday, June 12, 2019 at 9:00 a.m. Eastern Daylight Time.

Purpose

Shareholders will vote on the following items of business:

1. Election of all 13 directors named in our proxy statement to our Board of Directors for the coming year;
2. Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm;
3. Approval, on an advisory basis, of our executive compensation (Say on Pay);
4. The shareholder proposal contained in this proxy statement, if properly presented at the meeting; and
5. Transaction of any other business properly brought before the Annual Meeting or any adjournment.

You may vote if you were a shareholder of record at the close of business on **April 15, 2019**. We urge you to read the proxy statement carefully and to vote in accordance with the Board of Directors' recommendations. You should vote by the deadlines specified in this proxy statement, and may do so by telephone or Internet, or by signing, dating, and returning the enclosed proxy card in the postage-paid envelope provided.

If you plan to attend the Annual Meeting, please follow the instructions provided in Question 12 "How can I attend the Annual Meeting?" on page 70 of the proxy statement.

Following the formal business of the Annual Meeting, our Chairman & Chief Executive Officer will provide prepared remarks, followed by a question and answer session.

Thank you for your continued support.

Sincerely,

Don H. Liu
Corporate Secretary

General information about corporate governance and the Board of Directors

Corporate governance highlights

We have the core corporate governance practices listed below. In addition, we regularly evaluate our practices against prevailing best practices and emerging and evolving topics identified through shareholder outreach, current literature, and corporate governance organizations.

Practice	Description	More information
Accountability to shareholders		
Board evaluations and refreshment	The Board regularly evaluates its performance in a variety of ways. Those evaluations, changes in business strategy and operations, and anticipated director retirements are used to identify desired characteristics for future Board members.	18
Annual elections	All directors are elected annually, which reinforces our Board's accountability to shareholders.	17
Majority voting standard	Our Articles of Incorporation require a "majority voting" standard in uncontested director elections--each director must receive more votes "For" his or her election than votes "Against" in order to be elected.	17
Director resignation policy	An incumbent director that does not meet the majority voting standard must promptly offer to resign. The Nominating & Governance Committee will make a recommendation and the Board must act on the offer within 90 days and publicly disclose its decision and rationale.	17
Proxy access	Any shareholder or group of up to 20 shareholders owning 3% or more of Target common stock continuously for at least three years may nominate and include in our proxy materials director nominees totaling up to the greater of 20% of the Board or at least two directors.	73
No poison pill	We do not have a poison pill.	
10% special meeting threshold	Except in limited circumstances, shareholders owning 10% or more of Target's outstanding stock have the right to call a special meeting of shareholders.	
Shareholder voting rights are proportionate to economic interests		
Single voting class	Target common stock is the only class of voting shares outstanding.	68
One share, one vote	Each share of Target common stock is entitled to one vote.	68
Responsiveness to shareholders		
Responses to shareholder proposals	The Board responds to shareholder proposals that receive significant support by either making the proposed changes or explaining why the actions were not taken through the shareholder engagement process, proxy statement disclosure, or other means.	
Understanding opposition to management proposals	As part of its shareholder engagement process, the Board is committed to understanding the reasons for, and responding to, significant shareholder opposition to management proposals.	
Availability of independent directors	Target's Lead Independent Director is expected to communicate with major shareholders, as appropriate, and Target also makes other independent directors available, as appropriate, for shareholder engagement.	9, 16
Strong, independent leadership		
Independence	A majority of our directors must be independent. Currently, all of our directors other than our Chief Executive Officer (CEO) are independent, and all of our Committees consist exclusively of independent directors.	15
Lead Independent Director	Whenever our CEO is also the Chair of the Board, we require a Lead Independent Director position with specific responsibilities to provide independent oversight of management. Both the Lead Independent Director and the Chair of the Board are elected annually by the independent directors.	9
Committee membership and leadership rotations	The Nominating & Governance Committee reviews and recommends Committee membership. The Board appoints members of its Committees annually, rotates Committee assignments periodically, and seeks to rotate the Lead Independent Director position and Committee Chair assignments every four to six years.	9, 12

Practice	Description	More information
Structures and practices enhance Board effectiveness		
Diversity	The composition of our Board represents broad perspectives, experiences and knowledge relevant to our business while maintaining a balanced approach to gender and ethnic diversity.	17, 18
Director tenure policies	Our director tenure policies include mandatory retirement at age 72 and a maximum term limit of 20 years. In addition, a director is required to submit an offer of resignation for consideration by the Board upon any change in the director's principal employment. These policies encourage Board refreshment and provide additional opportunities to maintain a balanced mix of perspectives and experiences.	18
Director overboarding policy	Any director serving as a CEO of a public company is expected to serve on no more than two outside public company boards (including our Board), and other directors are expected to serve on no more than five public company boards (including our Board).	
Risk oversight	We disclose how risk oversight is exercised at the Board and Committee levels and how risk oversight responsibilities are allocated among the Committees.	12
Capital allocation policies and priorities	We disclose our capital allocation policies and priorities and how they are overseen by the Board and its Committees.	13
Management succession planning	Our Board regularly reviews management development and succession planning, with more in-depth reviews regularly conducted by the Human Resources & Compensation Committee.	14
Management incentive structures are aligned with long-term strategy		
Performance goals linked to long-term strategy drive incentive awards	The Human Resources & Compensation Committee has identified short- and long-term performance goals that underpin Target's strategy and has incorporated those goals into executive compensation plans to serve as drivers of incentive awards.	34
Communicating executive compensation to shareholders	The Compensation Discussion & Analysis explains how performance goals drive our executive compensation plans and connect to Target's long-term strategy.	32
Follow leading compensation practices	See "Target's Executive Compensation Practices."	44

For your convenience, we organized the corporate governance highlights listed above so you can see how our corporate governance practices compare favorably with the corporate governance principles developed by the Investor Stewardship Group (ISG), which includes some of the largest institutional investors and global asset managers and advocates for best practices in corporate governance. ISG's corporate governance principles reflect common corporate governance beliefs featured in its members' proxy voting guidelines.

Board leadership structure

We do not have an express policy on whether the roles of Chair of the Board and CEO should be combined or separated. Instead, the Board prefers to maintain the flexibility to determine which leadership structure best serves the interests of Target and our shareholders based on the evolving needs of the company. We currently have a combined Chair/CEO leadership structure. The Board regularly reevaluates our Board leadership structure as part of the Board evaluation process described under “Board evaluations and refreshment” on page 18 and also considers shareholder feedback on the topic. As a result of its most recent evaluation, the Board decided to continue having Mr. Cornell serve as both Chairman and CEO to allow him to coordinate the development, articulation and execution of a unified strategy at the Board and management levels. Where the Chair/CEO roles are combined as they are currently, our Corporate Governance Guidelines require that we have a Lead

Independent Director position to complement the Chair’s role and to serve as the principal liaison between the non-employee directors and the Chair. Mr. Baker currently serves as our Lead Independent Director, providing effective, independent leadership of our Board through his clearly defined and robust set of roles and responsibilities.

Our Corporate Governance Guidelines require that both the Chairman and Lead Independent Director be elected annually by the independent, non-employee directors, which ensures that the leadership structure is reviewed at least annually. The Board is committed to continuing to seek shareholder feedback on its approach as part of its ongoing shareholder outreach efforts and will continue to reassess its Board leadership structure on a regular basis.

**Douglas
M. Baker, Jr.**

**Lead Independent
Director
(Since 2015)**

Regular duties:

- Has the authority to convene meetings of the Board and executive sessions consisting solely of independent directors at every meeting;
- Presides at all meetings of the Board of Directors at which the Chair is not present, including executive sessions of independent directors;
- Consults with the Human Resources & Compensation Committee as it conducts the annual performance reviews of the CEO, with input from the other independent directors, and serves as the primary liaison between the CEO and the independent directors;
- Provides insights to the Human Resources & Compensation Committee as it annually approves the CEO’s compensation;
- Approves meeting schedules, agendas and the information furnished to the Board to ensure that the Board has adequate time and information for discussion;
- Is expected to engage in consultation and direct communication with major shareholders, as appropriate;
- Coordinates with the CEO to establish minimum expectations for non-employee directors to consistently monitor Target’s operations and those of our competitors; and
- Consults with the Nominating & Governance Committee regarding Board and Committee composition, Committee Chair selection, the annual performance review of the Board and its Committees, and director succession planning.

Annual election:

Elected annually by the independent, non-employee directors.

Service:

As a guideline, the Lead Independent Director should serve in that capacity for no more than four to six years.

Committees

The Board has the following Committees and Committee composition as of the date of this proxy statement. All members of each Committee are independent directors. Each Committee operates under a written charter, a current copy of which is available on our company website, as described in Question 14 “How may I access or receive the proxy materials, other periodic filings, key corporate governance documents and other information?” on page 72.

Committee composition and leadership

The Board appoints members of its Committees annually, with the Nominating & Governance Committee reviewing and recommending Committee membership, and assignments rotate periodically. The following considerations provide the framework for determining Committee composition and leadership:

- The guideline for rotating Committee Chair assignments is four to six years;
- The Board seeks to have each director serve on two Committees;
- The Board considers a number of factors in deciding Committee composition, including individual director experience and qualifications, prior Committee experience and increased time commitments for directors serving as a Committee Chair or Lead Independent Director;
- By virtue of the position, the Lead Independent Director is a member of the Nominating & Governance Committee; and
- To enhance risk oversight coordination, the Risk & Compliance Committee must include at least one member from each of the other Committees.

Risk oversight

A summary of the allocation of general risk oversight functions among management, the Board and its Committees is as follows:

The primary responsibility for the identification, assessment and management of the various risks that we face belongs with management. At the management level, risks are prioritized and assigned to senior leaders based on the risk's relationship to the leader's business area and focus. Those senior leaders develop plans to address the risks and measure the progress of risk management efforts. Our Chief Legal & Risk Officer provides centralized oversight of Target's enterprise risk management program. Our Chairman & CEO and his direct reports meet regularly with the Chief Legal & Risk Officer to identify, assess and manage risks facing the business. In addition, the Chief Legal & Risk Officer and other enterprise risk management team members regularly meet with leaders of business areas to inform, coordinate and manage the enterprise risk management program.

The Risk & Compliance Committee coordinates the oversight of different risks by the Board and each Committee, and is structured to support that coordination by having at least one director from each Committee included in its membership. The Board's oversight of the risks occurs as an integral and continuous part of the Board's oversight of our business and seeks to ensure that management has in place processes to deal appropriately with risk. For example, our principal strategic risks are reviewed as part of the Board's regular

discussion and consideration of our strategy, and the alignment of specific initiatives with that strategy. Similarly, at every meeting the Board reviews the principal factors influencing our operating results, including the competitive environment, and discusses with our senior executive officers the major events, activities and challenges affecting the company.

The Board's ongoing oversight of risk also occurs at the Board Committee level on a more focused basis as detailed above. The Chief Legal & Risk Officer annually presents an overview of the enterprise risk management program to the Board's Risk & Compliance Committee and provides it with regular updates on the program and status of key risks facing the business. The Risk & Compliance Committee regularly receives updates on key risk areas from members of management with primary responsibility for managing those risk areas. For example, at least annually the Chief Information Security Officer presents an information security program review to the Risk & Compliance Committee to inform the committee in its oversight of information and cyber security risks. In addition, the Risk & Compliance Committee and Audit & Finance Committee annually conduct a joint meeting to review legal and regulatory risk and compliance matters.

Our capital allocation policy and priorities

Three capital allocation priorities

Development and execution of our capital allocation policy are primarily the responsibility of our management and are overseen by the Board and its Committees. Our management follows a disciplined and balanced approach to capital allocation based on the following priorities, ranked in order of importance:

Priorities	Description
1. Investing in our business	Fully invest in opportunities to profitably grow our business, create sustainable long-term value, and maintain our current operations and assets
2. Annual dividend	Maintain a competitive quarterly dividend and seek to grow it annually
3. Share repurchase	Return excess cash to shareholders by repurchasing shares within the limits of our credit rating goals

Dividend and share repurchase philosophy

Our business generates more cash than we currently need to fully invest in the growth and long-term health of our business, so we return excess cash to shareholders through an appropriate balance between dividends and share repurchase. We believe that both dividends and share repurchases serve important purposes. We believe that our dividend should be competitive, reliable and sustainable. We view share repurchase as a capital structure balancing lever that we can use to right-size our balance sheet to support our credit rating goals. In addition, we believe that share repurchase is the most effective way to return any excess cash to

shareholders after we have met our other priorities of fully investing in our business and maintaining a competitive dividend, because it allows shareholders to redeploy the cash to a more productive use, while providing us with appropriate flexibility to respond to changes in our operating performance and investment opportunities. For example, we suspended all share repurchase activity for a period from the middle of 2013 through early 2015 in response to changes in our operating performance, but we continued to invest in our business and grew our annual dividend during that period.

Capital allocation oversight

The Board of Directors and its Committees share responsibility for overseeing capital allocation among our three capital allocation priorities:

Responsible party	General oversight area	Description of responsibilities
Board of Directors	All capital allocation priorities	<ul style="list-style-type: none"> ● Balance three main priorities appropriately for the growth and long-term health of our business ● Review annual and long-term capital and operating plans, including planned share repurchase activities ● Authorize dividends and share repurchase programs
Infrastructure & Investment Committee	Investing in our business	<ul style="list-style-type: none"> ● Monitor the overall level of investments ● Review alignment of investments with our strategies ● Evaluate effectiveness of investments in achieving appropriate returns
Audit & Finance Committee	Annual dividend and share repurchase priorities	<ul style="list-style-type: none"> ● Oversee liquidity to support operations and investments ● Evaluate capacity for and competitiveness of annual dividends ● Monitor execution of share repurchase activity ● Review management's credit rating goals ● Provide recommendations to full Board on amount of dividends and share repurchase authorization levels
Human Resources & Compensation Committee	Compensation effects of all capital allocation priorities	<ul style="list-style-type: none"> ● Consider effects of our capital allocation strategy during compensation plan design and goal-setting process ● Receive regular performance updates ● Retain ability to use discretion to adjust payouts where extraordinary circumstances occur

Board's role in management evaluations and management succession planning

One of the primary responsibilities of the Board is to ensure that Target has a high-performing management team. The Board regularly reviews management development and succession planning to maximize the pool of internal candidates who can assume top management positions without undue interruption. In

addition, the Human Resources & Compensation Committee conducts regular reviews of talent development and succession planning with a deeper focus than the full Board review, emphasizing career development of promising management talent.

Corporate responsibility and reputation

Target recognizes that environmental, social and governance issues are of increasing importance to many investors. We have a longstanding dedication to improving the communities where we operate, and since 1946 we have donated 5 percent of our profit to those communities. We know that working together with our team members, guests, suppliers and communities creates better outcomes on issues that matter to us all. Corporate responsibility is an enterprise-wide commitment informed by and integrated into our business strategy.

The Board has delegated oversight responsibility over Target's corporate responsibility matters to the Nominating & Governance Committee. The Vice President of Corporate Responsibility and the Corporate Responsibility team work with functional leaders across the company to determine strategies, policies and goals related to corporate responsibility and sustainability and regularly report to and seek input from the Nominating & Governance Committee on those matters, including review of the annual Corporate Responsibility Report.

We publish an annual Corporate Responsibility Report in accordance with the Global Reporting Initiative Standards as a framework to report on environmental, social and governance performance issues most important to our business stakeholders. Our most recent report, published in July 2018, covers a variety of environmental, social and governance issues, including responsible sourcing practices, diversity and inclusion, sustainable products, environmental management and policies, stakeholder engagement, and community investment. Through our annual Corporate Responsibility Reports, we set goals and targets and report our progress. A copy of our most recent Corporate Responsibility Report is available on our company website at <https://corporate.target.com/corporate-responsibility/goals-reporting>, as described in Question 14 "How may I access or receive the proxy materials, other periodic filings, key corporate governance documents and other information?" on page 72.

Board and shareholder meeting attendance

The Board of Directors met six times during fiscal 2018. All directors attended at least 80% of the aggregate total of meetings of the Board and Board Committees on which the director served during the last fiscal year.

All of our then-serving directors attended our 2018 Annual Meeting of Shareholders. The Board has a policy requiring all directors to attend all annual meetings of shareholders, absent extraordinary circumstances.

Director independence

The Board of Directors believes that a majority of its members should be independent directors. The Board annually reviews all relationships that directors have with Target to affirmatively determine whether the directors are independent. If a director has a material relationship with Target, that director is not independent. The listing standards of the NYSE also detail certain relationships that, if present, preclude a finding of independence. The Board affirmatively determined that all non-employee directors are independent. Mr. Cornell is the only employee director and is not independent.

In making its independence determination, the Board specifically considered the following transactions during fiscal 2018 and concluded that none of them impaired any director's independence:

- Mr. Baker served as Chairman & CEO of Ecolab Inc., from which we purchased supplies, servicing, repairs and merchandise.
- Ms. Minnick served as the partner in two Lion Capital funds, one of which had one portfolio company from which we purchased wholesale merchandise.
- Mr. Salazar served as a partner in WilmerHale, which provided legal services to us. Mr. Salazar does not personally provide any

of the legal services to Target. In addition, WilmerHale represented to us that (a) Mr. Salazar's compensation was not affected by the amount of legal services performed by WilmerHale for Target, (b) Mr. Salazar did not receive any of the fees from the Target relationship during each of the last three years, and (c) Mr. Salazar will not receive any of the fees from the Target relationship in the future.

Each of the transactions above involved amounts that represented an immaterial percentage of our, and the other entity's, revenues, and were well below the amounts that would preclude a finding of independence under the NYSE listing standards. In addition, none of the transactions are related-party transactions because none of the directors have a direct or indirect material interest in the listed transactions.

The Board also considered each director's length of service on the Board in making its annual independence determination. Specifically, the Board determined that Ms. Austin, Mr. Darden and Ms. Minnick, each of whom are up for re-election and have served on the Board for more than 12 years, continue to demonstrate the independence of judgment expected of independent directors.

Policy on transactions with related persons

The Board of Directors has adopted a written policy requiring that any transaction: (a) involving Target; (b) in which one of our directors, nominees for director, executive officers, or greater than five percent shareholders, or their immediate family members, have a direct or indirect material interest; and (c) where the amount involved exceeds \$120,000 in any fiscal year, be approved or ratified by a majority of independent directors of the full Board or by a designated Committee of the Board. The Board has designated the Audit & Finance Committee as having responsibility for reviewing and approving all such transactions except those dealing with compensation of executive officers and directors, or their immediate family members, in which case it will be reviewed and approved by the Human Resources & Compensation Committee.

In determining whether to approve or ratify any such transaction, the independent directors or relevant Committee must consider, in addition to other factors deemed appropriate, whether the transaction is on terms no less favorable to Target than those involving unrelated parties. No director may participate in any review, approval or ratification of any transaction if he or she, or his or her

immediate family member, has a direct or indirect material interest in the transaction.

We ratified one related party transaction in accordance with this policy during fiscal 2018. The son of Mr. Knauss, a non-employee director, is employed by a company from which we purchase wholesale merchandise. Mr. Knauss's son is a sales representative and represented the supplier in its relationship with Target Corporation during fiscal 2018. He ceased representing the supplier in its relationship with Target in November 2018. Our relationship with this supplier pre-dated Mr. Knauss's son's employment with the supplier. In fiscal 2018, we purchased approximately \$60.4 million of merchandise from the supplier, which represented less than 0.1% of our annual revenues. Target's decisions regarding purchases of merchandise from its suppliers are made by team members in the merchandising departments and no member of the Board of Directors has any input or involvement in such decisions. As described above under "Director independence," the Board affirmatively determined that Mr. Knauss is independent, and the transaction involving Mr. Knauss's son did not affect Mr. Knauss's independence.

Business ethics and conduct

We are committed to conducting business ethically and lawfully. All of our directors and named executive officers, like all Target team members, are required to act at all times with honesty and integrity. Our Code of Ethics, which applies to all Target team members, including our executive officers, Chief Accounting Officer and Controller, addresses a variety of topics, including putting ethics into action, working together, maintaining trust, conducting business fairly, safeguarding what's ours, and caring for the world. Included within those topics is how we address conflicts of interest, fair dealing, required information disclosures, and compliance with laws, rules and regulations, and prompt reporting. Our Code of Ethics also describes the means by which any employee can provide an

anonymous report of an actual or apparent violation of our Code of Ethics. Similarly, our directors are subject to a separate Code of Ethics contained within our Corporate Governance Guidelines, which is tailored to the unique role fulfilled by members of the Board and addresses conflicts of interest, corporate opportunities, maintaining confidentiality, compliance with laws, fair dealing, and compliance procedures.

On our website we disclose any amendments to, or waivers from, any provision of the applicable Code of Ethics involving our directors, executive officers, Chief Accounting Officer, Controller or other persons performing similar functions.

Communications with directors and shareholder outreach

Shareholders and other interested parties seeking to communicate with any individual director or group of directors may send correspondence to Target Board of Directors, c/o Corporate Secretary, 1000 Nicollet Mall, TPS-2670, Minneapolis, Minnesota 55403 or email BoardOfDirectors@target.com, which is managed by the Corporate Secretary. The Corporate Secretary, in turn, has been instructed by the Board to forward all communications, except those that are clearly unrelated to Board or shareholder matters, to the relevant Board members.

We regularly engage in outreach efforts with our shareholders, both large and small, relating to our business, compensation practices, and environmental, social and governance issues. We involve one or more independent directors in these conversations, as appropriate. While we benefit from an ongoing dialogue with many of our shareholders, we recognize that we have not communicated directly with all of our shareholders. If you would like to engage with us, please send correspondence to Target Corporation, Attn: Investor Relations, 1000 Nicollet Mall, TPN-0841, Minneapolis, Minnesota 55403 or email investorrelations@target.com.

Item one Election of directors

Election and nomination process

Our election process is backed by sound corporate governance principles:

- All directors are elected annually;
- Directors are elected under a “majority voting” standard — each director in an uncontested election must receive more votes “For” his or her election than votes “Against” in order to be elected; and
- An incumbent director who is not re-elected must promptly offer to resign. The Nominating & Governance Committee will make a recommendation on the offer to the full Board, and the Board must accept or reject the offer within 90 days and publicly disclose its decision and rationale.

The Nominating & Governance Committee is responsible for identifying individuals qualified to become Board members and making recommendations on director nominees to the full Board. The Committee considers the following factors in its efforts to identify potential director candidates:

- Input from the Board and management and feedback from our shareholders to identify the backgrounds and skill sets that are desired; and

- Changes in our business strategy or operating environment and the future needs of the Board in light of anticipated director retirements under our Board tenure policies.

The criteria the Board follows in determining the composition of the Board are as follows: directors are to have broad perspective, experience, knowledge and independence of judgment. The Board as a whole should consist predominantly of persons with strong business backgrounds that span multiple industries. The Board does not have a specific policy regarding consideration of gender, ethnic or other diversity criteria in identifying director candidates, but understands the value of diversity and inclusion.

The Nominating & Governance Committee has retained a third-party search firm to assist in identifying director candidates and will also consider recommendations from shareholders. Any shareholder who wishes the Committee to consider a candidate should submit a written request and related information to our Corporate Secretary no later than December 31 of the calendar year preceding the next annual meeting of shareholders. Shareholders may also nominate director candidates directly if they comply with our bylaws, which are described in more detail in Question 18 “How do I submit a proposal or nominate a director candidate for the 2020 annual meeting of shareholders?” on page 73 of the proxy statement.

Board evaluations and refreshment

Self-evaluation

The Nominating & Governance Committee, in consultation with the Lead Independent Director, annually leads the performance review of the Board and its Committees. In 2018, the Board self-evaluation involved a survey completed by each director about the Board and the Committees on which the director served, followed by individual interviews seeking each director's candid feedback. Following completion of the interviews, the results were discussed by the full Board and each Committee. In 2018, the Board self-evaluation was administered by the Corporate Secretary's office. The annual self-evaluation has periodically been conducted by a third-party consultant, as appropriate.

The self-evaluation process seeks to obtain each director's assessment of the effectiveness of the Board, the Committees and their leadership, Board and Committee composition and Board/management dynamics. In addition, as part of the self-evaluation process the Board evaluates individual director performance through questions in the survey focused on obtaining candid feedback on individual directors and through the individual interview process.

Corporate governance review

Our Nominating & Governance Committee regularly reviews Target's core corporate governance practices and prevailing best practices, emerging practices and evolving topics as indicated by shareholder outreach, current literature, and corporate governance organizations.

The Board maintains tenure policies (contained in our Corporate Governance Guidelines) as a means of ensuring that the Board regularly benefits from a balanced mix of perspectives and experiences.

Tenure policies

Gender diversity

Ethnic or racial diversity⁽¹⁾

(1) Our ethnically or racially diverse directors are Mr. Darden, Mr. De Castro, Ms. Healey, Ms. Lozano, Mr. Salazar and Mr. Stockton.

On March 5, 2018 and November 5, 2018, the Board elected Dmitri L. Stockton and George S. Barrett, respectively, to fill vacancies on the Board. Mr. Stockton was identified as a candidate by an independent director and evaluated by an independent search firm that was retained directly by the Nominating & Governance Committee to assist with identifying, screening and evaluating candidates for the Board. Mr. Barrett was identified as a candidate by the independent search firm. Mr. Stockton brings substantial experience in managing worldwide financial

operations, financial oversight, risk management, banking, asset management, employee benefits, governance, regulatory compliance and alignment of financial and strategic initiatives to the Board. Mr. Barrett brings extensive experience in executive leadership, distribution and manufacturing operations, regulatory compliance, finance, strategic planning, human resources and corporate governance to the Board. You can view biographical information about Mr. Stockton on page 27 and Mr. Barrett on page 22.

2019 nominees for director

After considering the recommendations of the Nominating & Governance Committee, the Board has set the number of directors at 13 and nominated all current directors to stand for re-election. The Board believes that each of these nominees is qualified to serve as a director of Target and the specific qualifications of each

nominee that were considered by the Board follow each nominee's biographical description. In addition, the Board believes that the combination of backgrounds, skills and experiences has produced a Board that is well-equipped to exercise oversight responsibilities on behalf of Target's shareholders and other stakeholders.

The following table describes key characteristics of our business, the desired skills for those business characteristics and what those skills represent.

Target's business characteristics	Desired skill	What the skill represents
Target is a large retailer that offers everyday essentials and fashionable, differentiated merchandise at discounted prices in stores and through digital channels.	Retail Industry Experience	Large retail or consumer products company experience.
Target's scale and complexity requires aligning many areas of our operations, including marketing, merchandising, supply chain, technology, human resources, property development, credit card servicing and our community and charitable activities.	Senior Leadership	Experience as executive officer level business leader or senior government leader.
Our brand is the cornerstone of our strategy to provide a relevant and affordable differentiated shopping experience for our guests.	Marketing or Brand Management	Marketing or managing well-known brands or the types of consumer products and services we sell.
We operate a large network of stores and distribution centers.	Real Estate	Real estate acquisitions and dispositions or property management experience.
We have a large and global workforce, which represents one of our key resources, as well as one of our largest operating expenses.	Workforce Management	Managing a large or global workforce.
Our business has become increasingly complex as we have expanded our offerings as well as the channels in which we deliver our shopping experience. This increased complexity requires sophisticated technology infrastructure.	Technology	Leadership and understanding of technology, digital platforms and new media, data security, and data analytics.
Our business involves sourcing merchandise domestically and internationally from numerous vendors and distributing it through our network of distribution centers.	Multi-National Operations or Supply Chain Logistics	Executive officer roles at multi-national organizations or in global supply chain operations.
We are a large public company committed to disciplined financial and risk management, legal and regulatory compliance and accurate disclosure.	Finance or Risk Management	Public company management, financial stewardship or enterprise risk management experience.
To be successful, we must preserve, grow and leverage the value of our reputation with our guests, team members, the communities in which we operate and our shareholders.	Public Affairs or Corporate Governance	Public sector experience, community relations or corporate governance expertise.

Stock ownership information

Stock ownership guidelines

Stock ownership that must be disclosed in this proxy statement includes shares directly or indirectly owned and shares issuable or options exercisable that the person has the right to acquire within 60 days. Our stock ownership guidelines vary from the required ownership disclosure in that they do not include any options, but do include share equivalents held under deferred compensation

arrangements as well as unvested restricted stock units (RSUs) and performance-based RSUs (PBRsUs) at the minimum share payout. We believe our stock ownership guidelines for our directors and executive officers are aligned with shareholders' interests because the guidelines reflect equity that has economic exposure to both upside and downside risk.

Ownership guidelines by position

Directors

Fixed value of \$500,000

CEO

7x base salary

Other NEOs

3x base salary

Equity used to meet stock ownership guidelines

Yes

- Outstanding shares that the person beneficially owns or is deemed to beneficially own, directly or indirectly, under the federal securities laws
- RSUs and PBRsUs (at their minimum share payout, which is 75% of the at-goal payout level), whether vested or unvested
- Deferred compensation amounts that are indexed to Target common stock, but ultimately paid in cash

No

- Options, regardless of when they are exercisable
- Performance Share Units (PSUs) because their minimum share payout is 0% of the at-goal payout level

All directors and executive officers are expected to achieve the required levels of ownership under our stock ownership guidelines within five years of their election or appointment. If a director or executive officer has not satisfied the ownership guideline amounts within those first five years or goes below the required amounts after that time period, he or she must retain all shares acquired on the vesting of equity awards or the exercise of stock options (in all cases

net of exercise costs and taxes) until compliance is achieved. In addition, if an executive officer is below the ownership guideline amounts during the first five years after becoming an executive officer, he or she must retain at least 50% of all shares acquired on the vesting of equity awards or the exercise of stock options (in all cases net of exercise costs and taxes) until compliance is achieved.

(1) The "Total stock ownership for guidelines" calculation, like the required disclosure of "Total shares beneficially owned" on page 30, includes "Other shares held" but differs by (a) excluding all options, regardless of whether they can be converted into common stock on or before June 8, 2019 and (b) including (i) share equivalents that are held under deferred compensation arrangements and (ii) RSUs and PBRsUs (at their minimum share payout, which is 75% of the at-goal payout level), whether vested or unvested, even if they will be converted into common stock more than 60 days from April 9, 2019.

(2) Based on closing stock price of \$80.66 as of April 9, 2019.

(3) Mr. Stockton joined the Board on March 5, 2018 and Mr. Barrett joined the Board on November 5, 2018. They both currently comply with our stock ownership guidelines because they have five years from those respective dates to meet the required \$500,000 stock ownership level.

Section 16(a) beneficial ownership reporting compliance

SEC rules require disclosure of those directors, officers and beneficial owners of more than 10% of our common stock who fail to timely file reports required by Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) during the most recent fiscal year. Based solely on review of reports furnished to us and written representations that no other reports were required during the fiscal year ended February 2, 2019, all Section 16(a) filing requirements were met.

Compensation Discussion and Analysis

Introduction

This Compensation Discussion and Analysis (CD&A) focuses on how our Named Executive Officers (NEOs) were compensated for fiscal 2018 (February 4, 2018 through February 2, 2019) and how their fiscal 2018 compensation aligned with our pay for performance philosophy.

For fiscal 2018, our NEOs were:

Name and principal position	Brian C. Cornell	Chairman & Chief Executive Officer
	Cathy R. Smith	Executive Vice President & Chief Financial Officer
	John J. Mulligan	Executive Vice President & Chief Operating Officer
	Michael E. McNamara	Executive Vice President & Chief Information Officer
	Don H. Liu	Executive Vice President and Chief Legal & Risk Officer

Our CD&A is divided into the following sections:

CD&A table of contents	Executive summary	33
	Our framework for executive compensation	36

Executive Summary

In late February 2017 we announced a multi-year plan in which we would aggressively invest in our business in support of our goal to position Target for long-term relevance, growth and sustainable value creation in an industry that is experiencing significant disruption. Fiscal 2018 was a year of acceleration of this plan after making the initial investments in fiscal 2017. We tripled the number of stores that were remodeled, greatly expanded the number and scope of fulfillment options for our guests, introduced 10 new proprietary brands, and continued to increase wages for our team members. All with the purpose of delivering strong, consistent and durable growth and to emerge as one of the industry's leading retailers into the future.

Fiscal 2018 financial performance exceeded expectations with our strongest year-over-year traffic and comparable sales growth in well

over a decade and adjusted diluted earnings per share from continuing operations (Adjusted EPS) that set an all-time record for the company. The fiscal 2018 financial highlights below, as disclosed in our annual report on Form 10-K, showcase that we have created a highly sustainable foundation for future growth.

Consistent with our pay for performance philosophy, this performance significantly influenced payouts under the financial component of our short-term incentive plan (STIP), which is based on absolute goal levels of performance. The impact on long-term incentive (LTI) awards was less notable as these awards are based on our performance relative to our competitors over a three-year time frame.

(1) Adjusted EPS, a non-GAAP metric, excludes the impact of certain items. See page 21 of our annual report on Form 10-K for fiscal 2018 (2018 Annual Report) for a reconciliation of Adjusted EPS to GAAP diluted earnings per share from continuing operations (EPS) and page 17 of our 2018 Annual Report for the calculation of the "Adjusted EPS growth" provided above.

(2) After-tax return on invested capital from continuing operations (ROIC), is a ratio based on GAAP information. The calculation of the number provided above is reported on page 23 of our 2018 Annual Report.

Shareholder support for our 2018 advisory vote on executive compensation and shareholder outreach program

At our 2018 Annual Meeting of Shareholders, shareholders approved our Say on Pay proposal in support of our executive compensation program by 94.9%, consistent with the 2017 vote of 93.9% and 2016 vote of 96.4%. We believe open dialogue with our shareholders and incorporation of their feedback into our executive compensation program has been instrumental in obtaining shareholder support for our compensation program's design and direction.

We regularly engage in outreach efforts with our shareholders relating to a variety of topics and involve one or more independent directors in these conversations as appropriate. We use the information gathered through these outreach efforts to help inform our compensation decisions. We look forward to continued dialogue on compensation matters and other issues relevant to our business.

Guiding Principles

We believe executive compensation should be directly linked to performance and the creation of long-term value for our shareholders. With that in mind, the three guiding principles of our compensation program are to:

- Deliver on our pay for performance philosophy in support of our strategy
- Provide a framework that encourages outstanding financial results and shareholder returns over the long-term
- Attract, retain and motivate a premier management team to sustain our distinctive brand and its competitive advantage in the marketplace

A significant portion of our executive compensation is at risk and, therefore, may vary from targeted compensation based upon the level of achievement of specified performance objectives and stock price performance.

Pay for performance

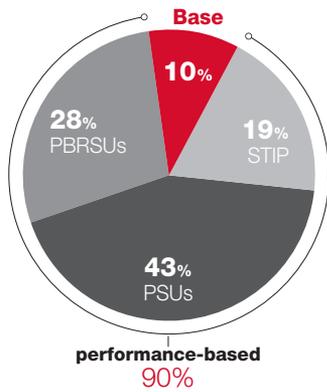

We have a long-standing belief that our executive compensation should be directly linked to performance and the creation of long-term value for our shareholders. We do that by providing our NEOs a mix of base salary, short-term and long-term incentives with compensation opportunities measured by a variety of time horizons to balance our near-term and long-term strategic goals.

Annual total direct compensation (Annual TDC) is the summed at-goal value of each pay component and is considered a useful

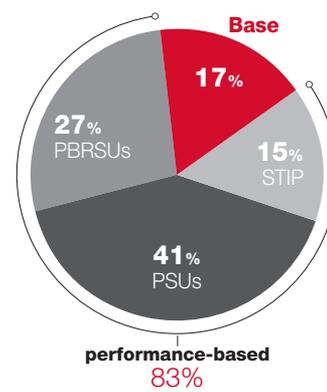

measure by the Human Resources & Compensation Committee because it reflects the intended total value of pay at the time the pay decision is made. Refer to page 37 for more information on how Annual TDC differs from the “Total” in the “Summary compensation table” for fiscal 2018 and fiscal 2017 on page 49.

Consistent with our guiding principles, 90% of CEO Annual TDC is at risk, 83% of other NEOs is at risk and 100% of our annual LTI grants feature relative performance-based metrics.

Annual CEO pay mix

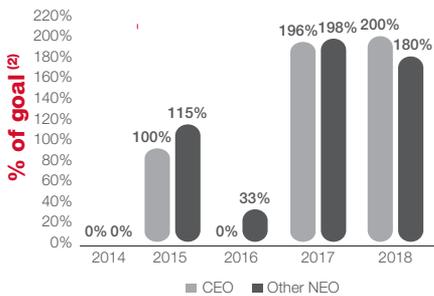

Annual other NEOs pay mix

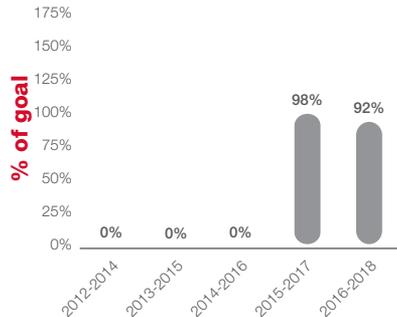

Actual payouts vary based on performance against goals approved by the Human Resources & Compensation Committee at the beginning of the performance period. The charts below demonstrate the pay for performance nature of our incentive plans, with variable payouts over the past five years.

- For our NEOs, our STIP is based on a combination of annual absolute financial goals and progress made toward key strategic priorities. Our fiscal 2018 goals were approved at the beginning of the year. Our financial performance exceeded our strategic plans, resulting in payouts above goal. For further discussion of our fiscal 2018 goals and performance, refer to pages 38-39.
- 100% of our LTI program features performance-based metrics and is tied to relative performance versus our retail peers over a three-year time period. At times, we have supplemented our annual LTI with performance-based awards to address unique circumstances, including the Strategic Alignment Awards (March 2015) and Price-Vested Options (April 2017). Both awards were performance-based and aligned the executive team around key strategic priorities. These awards were fully explained in prior years’ proxy statements.

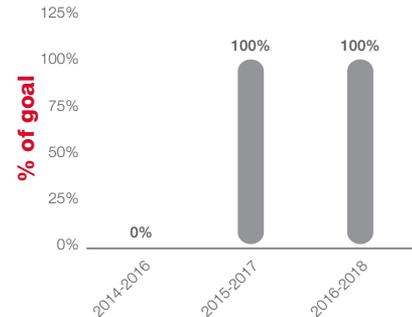

Payouts for STIP
% of goal⁽¹⁾

Payouts for PSU awards
% of goal⁽¹⁾

Payouts for PBRsU awards
% of goal⁽¹⁾

(1) Payouts for STIP as a percentage of goal represent the combined financial and personal score (FY14-15) or team scorecard (FY16-18) components of STIP.
 (2) For our CEO, percentages represent actual STIP payouts as a percentage of his at-goal STIP payout, based exclusively on financial performance. For our NEOs, percentages represent the average actual STIP payouts as a percentage of annual at-goal STIP payouts.

(1) The actual payouts for PSU awards granted in 2012, 2013, and 2014 were 0% for our NEOs, due to Target not meeting the 162(m) minimum performance condition.

(1) PBRsUs were introduced in 2014. The actual payout for the PBRsU awards granted in 2014 were 0% for our NEOs, due to not meeting the 162(m) minimum performance condition.

Performance highlights

The following highlights show our historical performance on key metrics that provide the basis for the metrics we use in our executive compensation programs over each of the last three years. The metrics used in our compensation program are described in more detail in the CD&A narratives for each compensation element, as well as in the footnotes below.

(1) Adjusted Sales, a non-GAAP metric, is one of the metrics used in our PSU compensation element and covers a three-year performance period. Adjusted Sales is calculated by starting with sales as reported on page 35 of our 2018 Annual Report (Sales) for all three years, and adjusting fiscal 2017, which was a 53-week accounting year, to reflect a 52-week accounting year to ensure consistent comparison with the PSUs' fiscal 2015 base year. Fiscal 2017 Adjusted Sales of \$70,619 million excluded \$1,167 million, which was the amount of Sales attributable to the extra accounting week, from fiscal 2017 Sales calculated under GAAP. We use Sales calculated under GAAP as one of the metrics used in our STIP compensation element. Sales calculated under GAAP for 2018, 2017 and 2016 were \$74,433 million, \$71,786 million and \$69,414 million, respectively.

(2) Operating Income is as reported on page 35 of our 2018 Annual Report, and provides the basis for Incentive Operating Income, which is one of the metrics we use in our STIP compensation element. Incentive Operating Income, a non-GAAP metric, represents Operating Income on a pre-short-term-incentive compensation basis and is calculated by excluding short-term incentive expense from our Operating Income.

(3) EPS is as reported on page 35 of our 2018 Annual Report. We use EPS as reported above as one of the metrics in our PSU compensation element.

(4) ROIC is a ratio based on GAAP information. For fiscal 2018 and fiscal 2017 it is as reported on page 23 of our 2018 Annual Report and, for fiscal 2016, page 17 of Exhibit (99) to our current report on Form 8-K filed May 11, 2018. We use ROIC as reported above as one of the metrics in our PSU compensation element. In calculating the ROIC metric used in our PSU compensation element, we did not adjust our results or those of our peers for the discrete tax benefits of the Tax Cuts and Jobs Act (Tax Act). However, for context, on page 23 of our 2018 Annual Report we disclose that ROIC excluding discrete impacts of Tax Act for fiscal 2018 and 2017 would have been 14.6% and 13.6%, respectively.

Our framework for executive compensation

Our compensation programs are structured to align the interests of our executive officers with the interests of our shareholders and support our strategy based on the guiding principles previously discussed. To align executive officer pay outcomes with long-term performance, 100% of our annual LTI grants feature relative performance-based metrics. See the following pages for more details on the elements of our compensation program.

Annual CEO compensation

How annual CEO pay is tied to performance

The following pay elements are performance-based and represent a significant percentage of Annual TDC. The payout ranges below are based on awards outstanding as of the end of fiscal 2018.

- **STIP** — Payouts range from 0% to 211% of goal when Incentive Operating Income and Sales performance levels are below threshold and at or above maximum, respectively.
- **PSUs** — Payouts range from 0% to 200% of goal depending on Adjusted Sales growth, EPS growth and ROIC performance relative to our retail peer group. Payout value is also inherently tied to stock price performance.
- **PBRsUs** — Payouts range from 75% to 125% of goal depending on total shareholder return (TSR) performance relative to our retail peer group. Payout value is also inherently tied to stock price performance.

Annual CEO compensation decisions

In March 2018, the Human Resources & Compensation Committee approved Annual TDC amounts for the CEO in consideration of his performance in repositioning Target for long-term relevance and sustainable value creation. These compensation decisions also considered market positioning relative to our retail and general industry peers, and represents a 4% increase in Annual TDC.

- **Base Salary** — Increase of \$100,000
- **STIP** — Maintain at-goal payout percent of base salary of 190%
- **LTI** — Increase of \$250,000

Timing of total compensation decisions for executive officers

As disclosed in last year’s proxy statement, during fiscal 2017, we adjusted the timing of total compensation decisions for executive officers, which shifted the timing of our annual equity grants from January to March. As January is the last month of our fiscal year, this moved the executive officers’ annual grant to the following fiscal year. As a result, the executive officers’ compensation as reported in the “Summary compensation table” for fiscal 2017 did not include

an annual equity grant, thereby generating lower values as compared to fiscal 2018.

The chart below represents Annual TDC for our CEO for the past two fiscal years and, in light of the change in timing of our annual equity grants, provides context to the amounts disclosed in the “Summary compensation table.”

	Annual TDC ⁽¹⁾ for our CEO	
	2018	2017
Base Salary	\$ 1,400,000	\$ 1,300,000
At-goal STIP	\$ 2,660,000	\$ 2,470,000
Annual LTI	\$ 9,750,000	\$ 9,500,000 ⁽²⁾
Total Annual TDC	\$ 13,810,000	\$ 13,270,000

(1) Annual TDC differs from the “Total” in the “Summary compensation table” on page 49 because it (a) includes STIP opportunity at-goal, rather than actual payout, (b) includes the annual PBRsUs and PSUs grants based on the dollar value used by the Human Resources & Compensation Committee in determining the number of shares granted, rather than the aggregate grant date fair value of awards, as computed in accordance with FASB ASC Topic 718, and (c) excludes the items shown under the “Change in pension value and nonqualified deferred compensation earnings” and “All other compensation” columns.

(2) For fiscal 2017, Annual TDC also differs from the “Total” in the “Summary compensation table” on page 49 because Annual LTI (a) excludes the “Option awards” that were not part of our Annual LTI program and (b) uses the fiscal 2016 PBRsUs and PSU awards granted in January 2017 as a representative annual grant because there were no annual LTI awards granted in fiscal 2017 due to the grant-timing shift described above. In last year’s proxy statement we made a similar disclosure, except that the fiscal 2017 Annual TDC amount was \$13,520,000 because we instead used the March 2018 PBRsUs and PSU awards granted in fiscal 2018 as a representative annual grant.

Base salary

We provide base salary as a means to deliver a stable amount of cash compensation to our executive officers. In alignment with our pay for performance philosophy, it represents the smallest portion of Annual TDC.

Short-term incentives

All NEOs are eligible to earn cash awards under our STIP program, which is designed to motivate and reward executives for performance on key annual measures. The financial component of our STIP program is based on two financial metrics: Incentive Operating Income (50%) and Sales (50%). The CEO STIP design is exclusively based on the financial component. See the “Performance highlights” tables and footnotes on page 35 for a description of where Sales are reported in, and how Incentive Operating Income is calculated from, our financial statements.

For our non-CEO NEOs, 67% of their STIP is based on the financial component. The remaining 33% of their STIP is based on a team scorecard, designed to strongly align pay opportunity to Target’s strategic agenda. The following table shows financial and scorecard goals expressed as a percentage of salary. For fiscal 2018, we retained our current threshold and maximum financial performance levels as a percentage of goal (Sales +/- 2% and Incentive Operating Income of +/- 10%).

		Fiscal 2018 (payout as a % of salary)			
	Component	Weight	Threshold	Goal	Maximum
CEO	Financial (Incentive Operating Income 50%, Sales 50%)	100%	75%	190%	400%
Other NEOs	Financial (Incentive Operating Income 50%, Sales 50%)	67%	13%	60%	134%
	Scorecard	33%	7%	30%	66%
	Total		20%	90%	200%

Fiscal 2018 financial STIP design, performance goals and how we performed in comparison to these goals

It is important to view our fiscal 2018 STIP program in the context of the multi-year investment plan we announced at the beginning of fiscal 2017. This plan, which was the subject of many of our shareholder engagement discussions and consistently communicated to the investment community, is intended to achieve long-term relevance, growth and sustainable value creation in an industry that is experiencing significant disruption. Specifically, the plan involves making substantial investments (which put pressure on near-term profitability) in our stores, supply chain and fulfillment network, new proprietary brands, and importantly, higher wages for our team members. Fiscal 2018 was a year of acceleration of this plan after making the initial investments in fiscal 2017, in that we tripled the number of stores that were remodeled, greatly expanded the number and scope of fulfillment options for our guests, introduced 10 new proprietary brands, and continued to increase wages for our team members.

When approving the design and specific goals for fiscal 2018, there was a deliberate emphasis placed on growing top line sales and market share given the industry disruption while maintaining a reasonable level of profitability in the face of greater investment levels. For this reason, the plan design was changed to increase the weighting of the Sales component from 25% in the prior year to 50%. The specific financial goal level for the Sales component was based on achieving overall sales growth of 2.6% on a 52-week basis, which required comparable sales growth at our highest level in five years. The goal level for Incentive Operating Income was established with acknowledgment that our operating income margin rates were expected to deteriorate given the additional investments we were making as part of our long-term strategy.

The specific goals, and our actual performance are:

Metric	Goal ⁽¹⁾	Actual ⁽¹⁾
Incentive Operating Income	\$ 4,405	\$ 4,594
Sales	\$ 72,441	\$ 74,433

(1) In millions.

Our actual Incentive Operating Income and Sales results exceeded our financial plans, with our strongest traffic and comparable sales growth in well over a decade. Specifically:

- Sales performance was \$2 billion above goal and represents comparable sales growth of 5%, reflecting strategic investments driving market share gains across categories, underpinned by a strong economic environment.
- Incentive Operating Income performance was approximately \$190 million above goal, primarily driven by our Sales strength.

Fiscal 2018 team scorecard assessment

The team scorecard provides a general structure for discussing and measuring performance of the management team as a group, excluding our CEO. Throughout the year, our CEO provided the Human Resources & Compensation Committee interim assessments of team scorecard performance. The team scorecard portion of the STIP for our non-CEO NEOs in 2018 was focused on accelerating our strategy, leveraging our greatest assets and leaning into our competitive strengths.

For fiscal 2018, primary team scorecard progress indicators identified at the beginning of the year included: market share gains in Apparel & Accessories, Essentials & Beauty and Food & Beverage; digital channel sales growth that outpaces the industry; numerous owned brand launches and redesigned store experiences; new small format stores; a significant number of store remodels; and, expansion of same day delivery through our wholly-owned subsidiary, Shipt, Inc., and on Target.com.

Our management team drove meaningful progress against these key indicators:

- Meaningful market share gains at the enterprise level and in every major category.
- Achieved digital channel comparable sales growth of 35.8%, which outpaced the industry.
- Launched 10 new owned brands.
- Completed more than 320 store remodels, totally transforming how they look, feel and function.
- Opened 28 new small format stores, with outsized sales productivity versus our broader portfolio.
- Expanded same-day delivery with both Shipt and Target.com, now in almost 1,500 stores.

Taking into consideration the outcomes described above, the CEO recommended, and the Human Resources & Compensation Committee approved, a team scorecard payout of 35% of base salary, out of a total opportunity of 66% of base salary, for our non-CEO NEOs.

Fiscal 2018 STIP payout

Given actual financial performance and progress made on the primary team scorecard indicators previously mentioned, the total fiscal 2018 STIP payout for our CEO and other NEOs is detailed below as a percentage of goal:

	Components	Fiscal 2018 actual payout as a % of goal
CEO	Financial	200%
Other NEOs	Financial + Scorecard	180%

Long-term incentives

To align our executive officers’ pay outcomes with long-term performance, 100% of our annual LTI grants feature relative performance-based metrics and comprises the majority of each NEO’s total compensation.

Value of LTI awarded at grant

In determining the amount of individual LTI awards, the Human Resources & Compensation Committee considered each NEO’s individual contributions to business outcomes during the fiscal year, potential future contributions, historical annual grant amounts and retention considerations, as well as market data for comparable executives from our retail and general industry peer groups. In

March 2018, the Human Resources & Compensation Committee approved a change in the mix of our annual LTI awards from 75% PSUs and 25% PBRsUs to 60% PSUs and 40% PBRsUs to align with the market, while continuing to reward for success on key metrics relative to our peers.

Grant timing shift

As disclosed in last year’s proxy statement, in fiscal 2017 we made the decision to shift the timing of total compensation decisions for executive officers. Refer to “Timing of total compensation decisions for executive officers” on page 37 for more information.

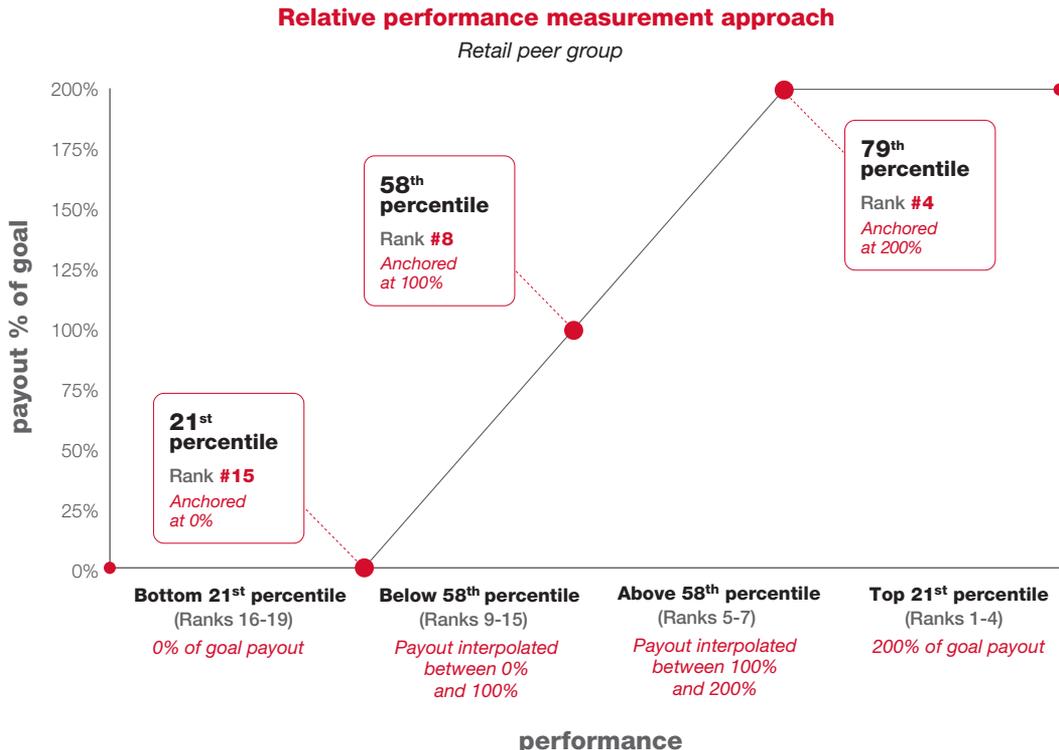

PSUs

Our PSUs have a three-year performance period and are settled in stock. The plan payout is intended to reflect the same key metrics we use to manage our business and drive shareholder returns over time. Each metric is compared relative to our retail peer group and is intended to incent management to outperform the peer group over the long term. The three relative metrics used in our PSU plan are:

- **Adjusted Sales growth.** The compound annual growth rate in Adjusted Sales over the performance period, relative to our retail peer group.
- **EPS growth.** The compound annual growth rate of our EPS versus the reported EPS of our retail peer group.

- **ROIC.** Three-year average net operating profit after-tax divided by average invested capital for both our results and our retail peer group, excluding discontinued operations.

See the “Performance highlights” tables and footnotes on page 35 for a description of where EPS and ROIC are reported in, and how Adjusted Sales is calculated from, our financial statements. With these three independent metrics, our PSU program supports the critical drivers of our success: to grow the top-line relative to the retail sector, to grow it profitably, and to ensure prudent deployment of capital to drive the business. The following example illustrates PSU payouts at various levels of performance:

For more information about our peer groups, see page 46.

PSU Adjustments

The intent of our PSU program is to measure performance relative to our peer group on the previously described metrics. To achieve this measurement objectively, we base the initial rankings on annual reported financial results of each member of the retail peer group and Target (unless determined otherwise at the time of grant). The Human Resources & Compensation Committee has reserved discretion to adjust the reported financial results for Target or any member of the retail peer group if it believes such adjustments necessary to properly gauge Target's relative performance.

Historically, adjustments to Target's results have included items that did not reflect our ongoing core operations or were needed to ensure consistent time frame comparisons over the performance period. In addition, those adjustments are based on events that arose after the time of grant and typically decreased participants' resulting payouts.

For items known at the time of grant, the Human Resources & Compensation Committee proactively addresses them as part of the grant approval. For items arising after the time of grant, adjustments are typically made before or at the time payouts are determined by the Human Resources & Compensation Committee.

Consistent with those past practices, the Human Resources & Compensation Committee approved the following:

- At the time of grant, excluded (a) the 53rd week from our Sales and those of our peers to ensure a consistent time frame comparison, and (b) the impact of the 2015 sale of our pharmacy business to CVS Health (2015 was the base year for PSUs that paid out in 2018); and
- Prior to the payout, removed Staples from the retail peer group because of its going private transaction and adjusted the percentile rankings to reflect that removal.

2016-2018 PSU payout

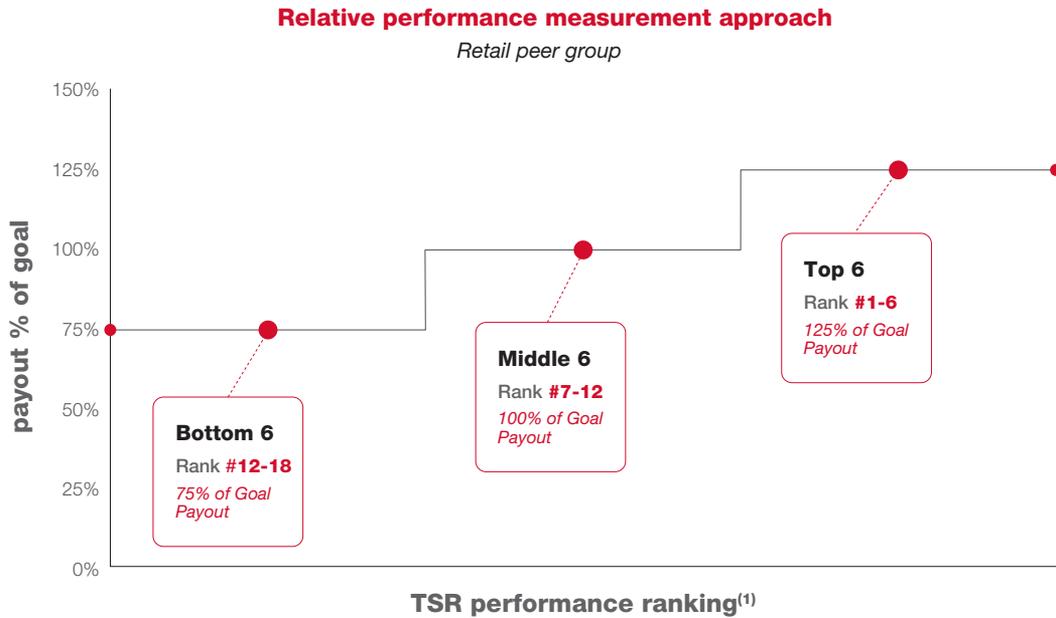

In April 2019, the NEOs received payouts with respect to the PSU awards that were granted in January 2016 for the three-year performance period ended February 2, 2019. These awards were paid at 89% of the goal number of shares. The following table summarizes the rankings and payout results for awards granted in fiscal 2016. This outcome is based on comparing our results to

those of the retail peer group we disclosed in our proxy statement covering the time of grant. The Adjusted Sales growth and EPS growth metrics utilize a base year of fiscal 2015 and a final performance year of fiscal 2018, while for ROIC we use an average of 2016, 2017 and 2018.

Metric	Performance Rank Relative to Peers	Payout %	Total Payout
Market share	14 of 18	39%	92.3%
EPS growth	11 of 18	87%	
ROIC	6 of 18	151%	

PBRUSUs

Our PBRUSUs have a three-year performance period with the number of shares based on relative three-year TSR performance versus our retail peer group. The PBRUSU amount will be adjusted up or down by 25 percentage points if Target’s TSR is in the top one-third or bottom one-third for the retail peer group, respectively, over the three-year vesting period. These stock-settled awards cliff vest at the end of the performance period.

(1) The retail peers for PBRUSUs exclude Publix. The value of Publix’s stock price is established on an annual basis, making them an inappropriate comparator for the purpose of assessing our relative TSR performance.

2016-2018 PBRUSU payout

In March 2019, the NEOs received payouts with respect to the PBRUSU awards that were granted in January 2016 for the three-year performance period ended February 2, 2019. With a TSR ranking of 11 out of 17 relative to our retail peers, these awards were paid at 100% of the goal number of shares. This outcome is based on comparing our results to those of the retail peer group we disclosed in our proxy statement covering the time of grant.

Consistent with our PSU adjustment, prior to the payout, the Human Resources & Compensation Committee approved removing Staples from the retail peer group because of its going private transaction and adjusting the performance rankings to reflect that removal.

Other benefit elements

We offer other benefit components designed to encourage retention of key talent including:

- **Pension plan.** No pension plan is available to any employee hired after January 2009. We maintain a pension plan for team members hired prior to January 2009 who meet certain eligibility criteria. We also maintain supplemental pension plans for those team members who are subject to IRS limits on the basic pension plan or whose pensions are adversely impacted by participating in our deferred compensation plan. Our pension formula under these plans is the same for all participants—there are no enhanced benefits provided to executive officers beyond extending the pension formula to earnings above the qualified plan limits or contributed to our deferred compensation plan.
- **401(k) plan.** Available to all team members who completed 1,000 hours for the company. There is no enhanced benefit for executives.
- **Deferred compensation plan.** For a broad management group (approximately 3,800 eligible team members), we offer a non-qualified, unfunded, individual account deferred compensation plan. The plan has investment options that generally mirror the Target 401(k) Plan, but also includes a fund based on Target common stock.
- **Perquisites.** We provide certain perquisites to our executive officers, principally to allow them to devote more time to our business and to promote their health and safety. The Human Resources & Compensation Committee reviews these perquisites annually to ensure they are consistent with our philosophy and appropriate in magnitude. Mr. Cornell is only eligible for perquisites that support his safety, health and well-being—home security, parking, executive physical and personal use of company-owned aircraft for security reasons.

Greater detail on these components is provided in the footnotes and tables that follow the “Summary compensation table” on page 49.

Income continuation plan

None of our NEOs has enhanced change-of-control benefits or rights to tax gross-ups. We provide an Income Continuation Plan (ICP) to executive officers who are involuntarily terminated without cause to assist in their occupational transitions. The maximum payment under this plan (paid during regular pay cycles over two years) is two times the sum of base salary and the average of the last three years of short-term incentive payments. In addition, any NEO who receives severance payments under our ICP also receives a \$30,000 allowance for outplacement services.

Compensation governance

Target's executive compensation practices

Compensation practice	Target Policy	More information
Pay for performance	Yes A significant percentage of the total direct compensation package features performance-based metrics, including 100% of our annual LTI.	34
Robust stock ownership Guidelines	Yes We have stock ownership guidelines for executive officers of 7x base salary for CEO, 3x base salary for non-CEO executive officers and \$500,000 for directors.	28
Annual shareholder "Say on Pay"	Yes We value our shareholders' input on our executive compensation programs. Our Board of Directors seeks an annual non-binding advisory vote from shareholders to approve the executive compensation disclosed in our CD&A, tabular disclosures and related narrative of this proxy statement.	65
Double trigger change-in-control	Yes We grant equity awards that require both a change-in-control and an involuntary termination or voluntary termination with good reason before vesting.	59
Annual compensation risk Assessment	Yes A risk assessment of our compensation programs is performed on an annual basis to ensure that our compensation programs and policies do not incentivize excessive risk-taking behavior.	47
Clawback policy	Yes Our policy allows recovery of incentive cash, equity compensation and severance payments where a senior executive's intentional misconduct results in material financial or reputational harm, or results in a need for a restatement of our consolidated financial statements.	47
Independent compensation consultant	Yes The Human Resources & Compensation Committee retains an independent compensation consultant to advise on the executive compensation program and practices.	45
Hedging of company stock	No Executive officers and members of the Board of Directors may not directly or indirectly engage in transactions intended to hedge or offset the market value of Target common stock owned by them.	47
Pledging of company stock	No Executive officers and members of the Board of Directors may not directly or indirectly pledge Target common stock as collateral for any obligation.	47
Tax gross-ups	No We do not provide tax gross-ups to our executive officers.	43
Dividends on unearned performance awards	No We do not pay dividends on unearned performance awards.	52
Repricing or exchange of underwater stock options	No Our equity incentive plan does not permit repricing or exchange of underwater stock options without shareholder approval.	
Employment contracts	No We do not use employment contracts with our NEOs, except in special circumstances.	

Process for determining executive compensation (including NEOs)

Human Resources & Compensation Committee

The Human Resources & Compensation Committee is responsible for determining the composition and value of the pay packages for all of our executive officers, including the CEO. The Human Resources & Compensation Committee receives assistance from two sources: (a) an independent compensation consulting firm, Semler Brossy Consulting Group (SBCG); and (b) our internal executive compensation staff, led by our Executive Vice President &

Chief Human Resources Officer. All decisions regarding executive compensation are made solely by the Human Resources & Compensation Committee. The Human Resources & Compensation Committee may not delegate its primary responsibility of overseeing executive officer compensation, but it may delegate to management authority for our compensation plans that do not involve the setting of compensation levels for executive officers.

Human Resources & Compensation Committee's independent consultant

SBCG has been retained by and reports directly to the Human Resources & Compensation Committee and does not have any other consulting engagements with management or Target. The Committee assessed SBCG's independence in light of the SEC and NYSE listing standards and determined that no conflict of interest or independence concerns exist.

With respect to CEO compensation, SBCG provides an independent recommendation to the Human Resources & Compensation Committee, in the form of a range of possible outcomes, for the

Human Resources & Compensation Committee's consideration. In developing its recommendation, SBCG relies on its understanding of Target's business and compensation programs and SBCG's independent research and analysis. SBCG does not meet with our CEO with respect to CEO compensation. SBCG also provides an independent assessment of the CEO's recommendations on NEO compensation to the Human Resources & Compensation Committee.

Compensation of other executive officers and role of management

In developing compensation recommendations for other executive officers, the Executive Vice President & Chief Human Resources Officer provides our CEO with market data on pay levels and compensation design practices provided by management's external compensation consultants, Willis Towers Watson and Korn Ferry Hay Group, covering our retail and general industry peer group companies. Management's outside consultants do not have any interaction with either the Human Resources & Compensation Committee or our CEO, but do interact with the Executive Vice President & Chief Human Resources Officer and her staff. In addition to providing market data, management's external compensation

consultants perform other services for Target unrelated to the determination of executive compensation.

Our Executive Vice President & Chief Human Resources Officer and the CEO work together to develop our CEO's compensation recommendations to the Human Resources & Compensation Committee for other executive officers. The CEO alone is responsible for providing final compensation recommendations for the other executive officers to the Human Resources & Compensation Committee.

Benchmarking using compensation peer groups

Peer group market positioning is another important factor considered in determining each executive officer's Annual TDC.

The Annual TDC levels and elements described in the preceding pages are evaluated annually for each executive officer relative to our retail and general industry peer group companies. The market comparisons are determined by use of compensation data obtained from publicly available proxy statements analyzed by SBCG and proprietary survey data assembled by Willis Towers Watson and Korn Ferry Hay Group.

Due to a range of factors, including the scope of NEO positions, tenure in role and company-specific concerns, there is an imperfect comparability of NEO positions between companies. As such, market position served as a reference point in the Annual TDC determination process rather than a formula-driven outcome.

The retail peer group was formulated based on an initial screen of companies in the Global Industry Classification Standard retailing index with revenue from core retail operations greater than \$15 billion. The retail peer group is also used within our LTI plans. Target's relative performance compared to this peer group on key metrics determines overall payout for our PSU and PBR SU awards.

General industry companies are also included as a peer group because they represent companies with whom we compete for talent. Like the selected retailers, the general industry companies are large and among the leaders in their industries.

The composition of the peer groups is reviewed annually to ensure it is appropriate in terms of company size and business focus, and any changes made are reviewed with SBCG and approved by the Human Resources & Compensation Committee. In fiscal 2018, we removed Time Warner Inc. due to its merger with AT&T Inc.

Compensation policies and risk

As part of our regular review of our compensation practices, we conduct an analysis of whether our compensation policies and practices for our employees create material risks to the company. Our risk assessment is two pronged. First, we take a “top-down” approach by evaluating whether our compensation programs and policies exacerbate top enterprise-wide risks. Next, we take a “bottom-up” approach to assess the following key compensation risk areas: performance measures, pay mix, goal setting and performance curve, leverage, magnitude of pay, calculation of

performance, participant communication, severance and corporate governance.

The results of this analysis, which concluded that our policies and practices do not create risks that are reasonably likely to have a material adverse effect on the company, were reviewed by the Human Resources & Compensation Committee’s independent consultant and discussed with the Human Resources & Compensation Committee. More specifically, this conclusion was based on the following considerations:

Compensation risk considerations

Pay Mix	Compensation mix of base salary and short-term and long-term incentives provides compensation opportunities measured by a variety of time horizons to balance our near-term and long-term strategic goals.
Performance Metrics	A variety of distinct performance metrics are used in both the short-term and long-term incentive plans. This “portfolio” approach to performance metrics encourages focus on sustained and holistic overall company performance.
Performance Goals	Goals are approved by our independent directors and take into account our historical performance, current strategic initiatives and the expected macroeconomic environment. In addition, short-term and long-term incentive compensation programs are designed with payout curves and leverage that support our pay for performance philosophy.
Equity Incentives	Equity incentive programs and stock ownership guidelines are designed to align management and shareholder interests by providing vehicles for executive officers to accumulate and maintain an ownership position in the company.
Risk Mitigation Policies	We incorporate several risk mitigation policies into our officer compensation program, including: <ul style="list-style-type: none"> ● The Human Resources & Compensation Committee’s ability to use “negative discretion” to determine appropriate payouts under formula-based plans; ● A clawback policy to recover incentive compensation if an executive officer’s intentional misconduct results in material financial or reputational harm, or results in a need for a restatement of our consolidated financial statements; ● Stock ownership guidelines for executive officers and directors; and ● Anti-hedging and anti-pledging policies.

Clawback policy

Our clawback policy, which covers all senior executives, was expanded in early 2018 to cover material financial or reputational harm. The expanded policy allows for recovery of compensation if a senior executive’s intentional misconduct:

- violates the law, our code of ethics, or any significant ethics or compliance policy; and
- results in material financial or reputational harm, or results in a need for a restatement of our consolidated financial statements.

The compensation elements that are subject to recovery under this policy include:

- All amounts paid under the STIP (including any discretionary payments);
- All awards under the Long-Term Incentive Plan whether exercised, vested, unvested, or deferred; and
- All amounts paid under the ICP.

All recoveries are determined in the discretion of the Human Resources & Compensation Committee.

Anti-hedging and anti-pledging policy

Executive officers and members of the Board of Directors may not directly or indirectly engage in capital transactions intended to hedge or offset the market value of Target common stock owned by them, nor may they pledge Target common stock owned by them as collateral for any loan. All of our executive officers and members of the Board of Directors are in compliance with this policy.

Grant timing practices

The following practices have not been formalized in a written policy, but have been regularly followed:

- Our annual LTI grant coincides with a regularly scheduled Board of Directors meeting that is scheduled more than one year in advance. Currently, the annual LTI grant is made at the March Board of Directors meeting. Prior to fiscal 2017, the annual LTI grant was made at the January Board of Directors meeting. The Board has retained discretion to change the annual grant date in the future under appropriate circumstances.
- We have no practice or policy of coordinating or timing the release of company information around our grant dates.
- We occasionally grant equity compensation to executive officers outside of our annual LTI grant cycle for new hires, promotions, recognition, retention or other purposes. If the grant date is after the approval date, it must be on a date specified at the time of approval.

Compensation tax policy

Prior to the Tax Act passing in fiscal 2017, we were able to deduct most of our performance-based executive compensation under Section 162(m) of the Internal Revenue Code (IRC). While the Tax Act significantly reduced the amount of compensation we can deduct under IRC Section 162(m), our pay-for-performance philosophy remains central to our compensation programs.

Compensation tables

Summary compensation table

The following “Summary compensation table” contains values calculated and disclosed according to SEC reporting requirements. Salary, Bonus, and Non-Equity Incentive Plan compensation amounts reflect the compensation earned during each fiscal year. Stock Awards reflect awards with a grant date during each fiscal year.

(1) For NEOs other than our CEO, the “Bonus” amount shows actual payouts earned under our STIP for the team scorecard component. The CEO has no team scorecard component to his STIP payout.

(2) Amounts represent the aggregate grant date fair value of awards made each fiscal year, as computed in accordance with FASB ASC Topic 718. See Notes 22 and 26, Share-Based Compensation, to our consolidated financial statements in our 2018 Annual Report and our 2017 Annual Report, respectively, for a description of our accounting and the assumptions used.

Compensation tables

- (3) Represents the aggregate grant date fair value of PSUs and PBRsUs that were computed based on the probable outcome of the performance conditions as of the grant date. Actual payments will be based on degree of attainment of the performance conditions and our stock price on the settlement date. The range of payments for the PSUs granted in fiscal 2018 is as follows:

Name	Minimum amount		Amount reported		Maximum amount
Mr. Cornell PSU Granted 3/14/18	\$	0	\$	5,850,067	\$ 11,700,134
Ms. Smith PSU Granted 3/14/18	\$	0	\$	1,950,070	\$ 3,900,139
Mr. Mulligan PSU Granted 3/14/18	\$	0	\$	3,000,053	\$ 6,000,105
Mr. McNamara PSU Granted 3/14/18	\$	0	\$	1,950,070	\$ 3,900,139
Mr. Liu PSU Granted 3/14/18	\$	0	\$	1,500,026	\$ 3,000,053

- (4) During fiscal 2017 we shifted the timing of our annual equity grants so that those grants occur in March of each year, instead of our previous practice of granting equity to executive officers in January, which is the last month of our fiscal year. Due to that timing shift, there were no Stock Awards granted in fiscal 2017, and executive officers' compensation for fiscal 2017 was significantly lower than fiscal 2016 and fiscal 2018. For more information about the annual grant timing shift, see page 37.
- (5) The "Non-equity incentive plan compensation" amount shows actual payouts earned under the financial component of our STIP.
- (6) For fiscal 2018, Mr. Mulligan's change in the qualified pension plan was \$9,396. Mr. Cornell, Ms. Smith, Mr. McNamara and Mr. Liu are not eligible for the Target Corporation Pension Plan (Pension Plan) or any supplemental pension plans because they were hired after January 2009. Consistent with applicable law, the accrued benefits under the Pension Plan cannot be reduced; however, the present value of the benefit is dependent on the discount rate used. The discount rates used in fiscal 2018, 2017 and 2016 were 4.28%, 3.94% and 4.42%, respectively. The "Change in pension value" column reflects the additional pension benefits attributable to additional service, increases in eligible earnings and changes in the discount rate.
- (7) The "All other compensation" amounts reported for fiscal 2018 include the elements in the following table.

Name	Restored match credits		Life insurance		SPP credits		Perquisites		Total
Mr. Cornell	\$	303,261	\$	16,347	\$	0	\$	237,768	\$ 557,376
Ms. Smith	\$	111,561	\$	15,392	\$	0	\$	24,962	\$ 151,915
Mr. Mulligan	\$	139,067	\$	2,596	\$	609,057	\$	68,597	\$ 819,317
Mr. McNamara	\$	100,265	\$	8,920	\$	0	\$	14,773	\$ 123,958
Mr. Liu	\$	27,900	\$	14,212	\$	0	\$	22,564	\$ 64,676

Restored match credits. Restored match credits represent up to a maximum of 5% of eligible pay allocated between the participant's Target 401(k) Plan and executive deferred compensation plan (EDCP) accounts. Restored match credits represent matching contributions made by Target into a participant's EDCP account where matching contributions for eligible pay are not able to be made into the participant's Target 401(k) Plan account because of IRC limits. The 5% match rate is the same for all team members. The increase in the "All other compensation" amounts from fiscal 2017 to fiscal 2018 for Mr. Cornell, Ms. Smith, Mr. Mulligan and Mr. McNamara was primarily due to larger amounts for restored match credits. The increase in restored match credits was primarily driven by larger bonus amounts in fiscal 2017 increasing eligible pay deferred. See Note 2 to the "Nonqualified deferred compensation for fiscal 2018" table for more information.

Life insurance. Life insurance represents the dollar value of life insurance premiums paid by Target.

SPP Credits. SPP credits represent additional accruals of supplemental pension plan benefits that are credited to their EDCP accounts. These benefits are based on our normal pension formulas. As applicable, they are affected by final average pay, service, age and changes in interest rates. See the narrative following the "Pension benefits for fiscal 2018" table for more information about our pension plans.

Perquisites. The perquisites for our NEOs other than Mr. Cornell consist of reimbursement of financial management expenses, reimbursement of home security expenses, on-site parking, spousal travel on business trips, limited personal use of company-owned aircraft (including use to travel to outside board meetings) and executive physicals. Mr. Cornell is eligible only for perquisites that support his safety, health and well-being, namely: reimbursement of home security expenses, on-site parking, executive physical, and personal use of company-owned aircraft (including use to travel to outside board meetings) for security reasons. The only individual perquisite that exceeded \$25,000 was Mr. Cornell's personal use of company-owned aircraft for security reasons, which amounted to \$218,468. No tax gross-up is provided on this perquisite.

The dollar amount of perquisites represents the incremental cost of providing the perquisite. We generally measure incremental cost by the additional variable costs attributable to personal use, and we disregard fixed costs that do not change based on usage. Incremental cost for personal use of company-owned aircraft was determined by including fuel cost, landing fees, on-board catering and variable maintenance costs attributable to personal flights and related unoccupied positioning, or "deadhead," flights. In addition to the perquisites included in the table in this footnote, the NEOs occasionally use support staff time for personal matters, principally to allow them to devote more time to our business, and receive personal use of empty seats on business flights of company-owned aircraft and personal use of event tickets when such tickets are not being used for business purposes, each of which are benefits for which we have no incremental cost.

- (8) As we previously announced, Ms. Smith intends to retire from Target. To support that transition, we entered into an agreement providing that she will continue in her role until a successor is named and thereafter will continue to be employed by Target as a non-executive officer in a strategic advisory capacity until May 1, 2020. Throughout the term of the agreement she will continue to receive the same base salary currently in effect and the same target bonus opportunity as other executive officers. In addition, Ms. Smith will be entitled to a cash payment of \$1.5 million in exchange for a post-employment non-compete and non-solicitation agreement. Ms. Smith will not be eligible for any severance payments under our ICP.
- (9) For 2016, in addition to the annual compensation amounts, as part of Mr. Liu's new hire compensation his "Bonus" amount included a \$500,000 sign-on bonus, his "Stock awards" amount included RSUs valued at \$3 million that were designed to make him whole for compensation he forfeited from his former employer when he joined Target (Make-Whole RSUs) and pro rata equity grants consisting of PSUs and PBRsUs valued at \$1.27 million, and his "Other Compensation" included \$250,092 for benefits under our relocation policy.

(1) Awards represent potential payments under the current STIP. Payments for the CEO are based on specified target levels of Incentive Operating Income and Sales, as described on pages 38-39. For NEOs other than our CEO, 67% of the payments are also based on specified target levels of Incentive Operating Income and Sales, and 33% is based on a team scorecard, as described on pages 38-39. Executive officers must be employed on the date the payments are made (typically in March of each year with respect to the preceding fiscal year) to be eligible for a payment, except in the event of death, disability or retirement eligibility (termination other than for cause after age 55 with at least five years of service). The maximum payment is the annual plan maximum, which is generally four times salary for our CEO and two times salary for executive officers other than our CEO.

(2) Awards represent potential payments under PSUs and PBRSUs granted in fiscal 2018. See the CD&A for a more detailed description of the performance measures for those awards. The other terms of the PSUs and PBRSUs are described in Note 3 to the "Outstanding equity awards at 2018 fiscal year-end" table.

(3) Grant date fair value for PSUs and PBRSUs was determined pursuant to FASB ASC Topic 718.

(1) Price-Vested Options have a seven-year term and recipients must be continuously employed with Target until April 17, 2020 before the Price-Vested Options vest and can be exercised. The other vesting condition, Target's stock price exceeding the stock price hurdle of \$75 per share for 20 consecutive trading days, was met during fiscal 2018. There are no retirement-based extensions of vesting or exercisability like those provided for other stock options described in Note 4. If a recipient's involuntary termination occurs before April 17, 2019, then all Price-Vested Options are forfeited. If the recipient's involuntary termination occurs on or after April 17, 2019 and before April 17, 2020, then 50% of the Price-Vested Options are forfeited and the recipient has one year after that involuntary termination to exercise the remaining 50% of the Price-Vested Options, though in no event may the exercise occur before April 17, 2020. If a recipient dies or becomes disabled before April 17, 2020, the Price-Vested Options must be exercised by April 17, 2021, though in no event may the exercise occur before April 17, 2020.

(2) Includes the Make-Whole RSUs granted to Mr. Liu on August 22, 2016. Those Make-Whole RSUs vested in one-third increments on each of the first two anniversaries of the grant date, and the last one-third increment is scheduled to vest in August 2019. After vesting, the Make-Whole RSUs will be converted into shares of our common stock on a 1:1 basis. Dividend equivalents are accrued (in the form of additional units) on the Make-Whole RSUs during the vesting period and converted to shares if and after the underlying Make-Whole RSUs vest. Mr. Liu must generally be continuously employed for three years from the grant date in order to receive the shares, except that in the event employment is involuntarily terminated without cause, 50% of Mr. Liu's outstanding unvested Make-Whole RSUs will vest, provided that he signs a release agreement. Vesting is also accelerated in the event of death or disability.

(3) The shares reported in these columns represent potentially issuable shares under outstanding PSU and PBRUSU awards. PSUs and PBRUSUs represent the right to receive a variable number of shares based on actual performance over the performance period. The number of shares reported is based on our actual performance results through the end of fiscal 2018 under the applicable performance measures and assuming that the payout will occur at the next highest level (threshold, target or maximum). The performance levels required for payouts on outstanding awards are described in the CD&A. The market value of stock reported is calculated by multiplying the number of shares by our 2018 fiscal year-end closing stock price of \$71.17.

Dividend equivalents are accrued (in the form of additional units) on PSUs and PBRUSUs, respectively, during the vesting period and are subject to the same performance and other conditions as the underlying PSUs and PBRUSUs. The dividend equivalents are converted to shares if and after the underlying PSUs and PBRUSUs vest.

The payment date of the awards, to the extent they are earned, will generally be within 90 days after the date the Human Resources & Compensation Committee certifies the financial results following completion of the performance period. Recipients must be continuously employed during the performance period to become vested, except that vesting will also occur, and any shares earned upon certification of the financial results following completion of the performance period will be paid, if a termination occurs under the following circumstances prior to the end of the performance period (referred to as "vesting-extension provisions"):

- Death or disability;
- For PSUs and PBRUSUs only, executive officer is age 55 or greater and has at least 5 years of service;
- For PSUs only, the executive officer is age 45-54, has at least 15 years of service and has worked for a specified minimum amount of the performance period (1-2 years, depending on age); or
- For PBRUSUs only, 50% of the shares subject to an award will vest if the recipient is involuntarily terminated without cause prior to the scheduled vesting date.

To receive these vesting-extension provisions, the executive officer must sign an agreement that includes a non-solicitation clause and a release of claims, and provides that the award will be terminated if the executive officer becomes employed by specified competitors (Release Agreement Requirement). If the termination is voluntary, the executive officer must also have commenced discussions with the company regarding the executive officer's consideration of termination at least six months prior to termination (Commence Discussions Requirement). These vesting-extension provisions are not available if an executive officer's employment is terminated for cause. If an executive officer's employment is terminated for cause, then all PSUs and PBRUSUs are forfeited.

(4) Mr. Mulligan is the only named executive officer who holds stock options other than Price-Vested Options. His outstanding options have all vested, and he would normally have 210 days to exercise vested stock options if his employment was terminated other than for cause. However, due to his age and years of service, he is eligible for a post-termination exercise period of four years (but not in excess of the original ten-year term of the option). Similar to the vesting-extension provisions described in Note 3, to receive his extended exercise period, Mr. Mulligan must meet the Release Agreement Requirement and, if his termination is voluntary, the Commence Discussions Requirement. The post-termination exercise period extension provisions are not available if Mr. Mulligan's employment is terminated for cause. If Mr. Mulligan's employment is terminated for cause, his stock options are forfeited. If Mr. Mulligan's termination is due to his death or disability, the post-termination exercise period is ten years. The exercise period is not to exceed the original ten-year term of the option, except to the extent necessary to provide at least one year to exercise after death during employment. Mr. Mulligan's stock options are transferable during his life to certain family members and family-controlled entities.

(1) Value realized on exercise is calculated as the difference between the market value of Target common stock on the respective exercise date(s) and the exercise price of the option(s).

(2) Value realized on vesting is calculated by multiplying the number of shares acquired on vesting by the market value of Target common stock on the respective vesting date(s), except that where the Human Resources & Compensation Committee must certify the number of shares earned, Value realized on vesting is calculated by multiplying the number of shares earned by the market value of Target common stock on the date the Human Resources & Compensation Committee certifies the shares that were earned.

Pension benefits for fiscal 2018

Name ⁽¹⁾	Plan name	Age at FYE	Number of years credited service(#)	Present value of accumulated benefit
John J. Mulligan	Target Corporation Pension Plan	53	22	\$ 448,825

(1) Mr. Cornell, Ms. Smith, Mr. McNamara and Mr. Liu are not eligible for the Target Corporation Pension Plan or any supplemental pension plans because they were hired after January 2009.

Pension plan

The “Pension benefits for fiscal 2018” table reports benefits under the Target Corporation Pension Plan (Pension Plan), which is a tax qualified retirement plan that provides retirement benefits to eligible team members who were hired prior to January 2009. The Pension Plan benefit for Mr. Mulligan’s benefit is based on the Final Average Pay formula, which is calculated using final average pay as limited by the IRC. The final average pay benefit, expressed as a monthly, single life annuity commencing at age 65, is equal to the sum of: (a) 0.8% of the participant’s final average monthly pay multiplied by the years of service (not to exceed 25 years of service), plus (b) 0.25%

of the participants final average monthly pay multiplied by the years of service in excess of 25 years of service, plus (c) 0.5% of the participant’s final average monthly pay in excess of 12.5% of the average of the Social Security Taxable Wage Base for the 35-year period ending when the participant terminates employment multiplied by the years of service (not to exceed 25 years of service). Participants can elect among annuity forms that have an actuarially equivalent value. Early retirement payments may commence at age 55.

Supplemental pension plans

We also provide benefits under supplemental pension plans, which are reflected in the “Nonqualified deferred compensation for fiscal 2018” table. The Target Corporation Supplemental Pension Plan I (SPP I) restores the lost qualified Pension Plan benefit due to an officer’s eligible pay being greater than the annual compensation limits imposed by the IRC, and is based on the same benefit formulas used for determining benefits under the Pension Plan. The Target Corporation Supplemental Pension Plan II (SPP II) restores the lost qualified Pension Plan benefit due to amounts being deferred under the EDCP (our current deferred compensation plan) and therefore not considered for benefit purposes under the Pension Plan or SPP I.

Each year, the annual change in the actuarial lump-sum amount of a participant’s vested benefits under SPP I and II is calculated and added to, or deducted from, the participant’s EDCP account. A final calculation and an EDCP account adjustment occurs upon termination of employment. Because of the feature that annually transfers amounts to a participant’s EDCP account, the benefits accrued under SPP I and II are reflected as EDCP deferrals in the “Nonqualified deferred compensation for fiscal 2018” table.

Nonqualified deferred compensation for fiscal 2018

The amounts in the following table represent deferrals under the EDCP, which includes the supplemental pension benefits discussed in the preceding section.

Name	Executive contributions in last FY ⁽¹⁾	Registrant contributions in last FY ⁽²⁾	Aggregate earnings in last FY ⁽³⁾	Aggregate withdrawals/distributions in last FY	Aggregate balance at last FYE ⁽⁴⁾

Don H. Liu	\$ 67,180	\$ 13,000	\$ (673)	\$ 0	\$ 144,989

(1) All amounts of Executive contributions in the table have been reported in the current year "Summary compensation table."

(2) All registrant contributions from the table have been reported in the current year "Summary compensation table." Registrant contributions include transfers of supplemental pension benefits, net of any negative credits, and restored match credits on executive deferrals into the EDCP (i.e., matching contributions made into a participant's EDCP account where matching contributions are not able to be made into the participant's Target 401(k) Plan account because of IRC limits). Restored match credits became subject to a vesting requirement during fiscal 2017. Contributions made in fiscal 2017 and later years cliff vest five years after an executive first becomes eligible to participate in EDCP. The restored match credits made to Mr. Mulligan in 2018 are vested, while those made to Mr. Cornell, Ms. Smith, Mr. McNamara, and Mr. Liu are not.

(3) No amounts from aggregate earnings in the table have been reported in the current year "Summary compensation table."

(4) The following amounts of the aggregate balance from the table were reported in the summary compensation tables covering fiscal years 2006-2017.

	Reported in prior years' summary compensation tables
Mr. Cornell	\$ 611,420
Ms. Smith	\$ 404,539
Mr. Mulligan	\$ 2,515,055
Mr. McNamara	\$ 0
Mr. Liu	\$ 7,500

Participants in the EDCP may generally elect to defer up to 80% of their salary, Bonus and Non-Equity Incentive Plan payments. At any time, EDCP participants are permitted to choose to have their account balance indexed to crediting rate alternatives that generally mirror the investment choices and actual rates of return available under the Target 401(k) Plan, except that the EDCP alternatives also include a Target common stock fund. Target invests general corporate assets through various investment vehicles to offset a substantial portion of the economic exposure to the investment returns earned under EDCP. See Note 23, Defined Contribution Plans, to the consolidated financial statements in our 2018 Annual Report for additional information.

At the time of deferral, participants can elect to receive a distribution of their EDCP account at a fixed date or upon termination of employment. EDCP payouts at a fixed date will be made as

lump-sum payments. EDCP payouts made on termination of employment can be made as a lump-sum payment, or installment payments over five or ten years commencing immediately or one year after termination of employment. EDCP payouts are also made in the case of the termination of EDCP, a qualifying change-in-control, or unforeseeable financial emergency of the participant creating severe financial hardship.

The EDCP is intended to comply with IRC Section 409A. As a result, payments to executive officers based on a termination of employment will be delayed six months. The EDCP is an unfunded plan and represents a general unsecured obligation of Target. Participants' account balances will be paid only if Target has the ability to pay. Accordingly, account balances may be lost in the event of Target's bankruptcy or insolvency.

Potential payments upon termination or change-in-control

This section explains the payments and benefits to which our currently employed NEOs are entitled in various termination of employment and change-in-control scenarios. The potential payments to the currently employed NEOs are hypothetical situations only, and assume that termination of employment and/or change-in-control occurred on February 2, 2019, the last day of our 2018 fiscal year, and that any change-in-control was at our fiscal year-end closing stock price of \$71.17 per share. A double-trigger generally applies to RSUs, PBRsUs and PSU awards and the Price-Vested Options, meaning that no outstanding awards of those types granted will accelerate upon a change-in-control unless, within two years after a change-in-control, an involuntary termination of employment without cause or a voluntary termination of employment for good reason occurs.

The intent of this section is to isolate those payments and benefits for which the amount, vesting or time of payment is altered by the described situations. This section does not cover all amounts the NEOs will receive following termination. Specifically, the NEOs are

entitled to receive their vested balances under our pension and deferred compensation plans, as disclosed in the preceding tables, under all employment termination scenarios. In addition, unless the termination is for cause (generally defined as deliberate and serious disloyal or dishonest conduct), they retain their vested stock option awards, and if they meet specified minimum age and years of service requirements at the time of termination, the unvested portion of stock options and PSUs are not forfeited, and vesting will continue according to the original schedule for defined periods. A description of those age and years of service requirements is provided in the notes under the “Outstanding equity awards at 2018 fiscal year-end” table. Only Mr. Mulligan has met the minimum age and years of service requirements.

The following table shows the payments and benefits for which the amount, vesting or time of payment is altered by each situation (referred to as Post-Termination Benefits). The paragraphs following the table explain the general provisions applicable to each termination situation.

- (1) Amounts are determined by multiplying the number of shares for which vesting is accelerated by our closing stock price on February 1, 2019 (\$71.17 per share). Any remaining unvested PBRsUs, PSUs and Make-Whole RSUs are forfeited.
- (2) The PBRSU and PSU awards are subject to a double-trigger, meaning that no vesting will accelerate upon a change-in-control unless, within two years after a change-in-control, an involuntary termination of employment without cause or a voluntary termination of employment for good reason occurs. For awards granted prior to March 14, 2018, the amount accelerated is equal to the greater of: (a) the amount the recipient would have been entitled to had the termination occurred without a change-in-control (which ranges from 50% to 100% of the at-goal payout depending on the award type and the participant's age and years of service), or (b) a pro-rata portion of the at-goal payout based on the percentage of the performance period that has elapsed as of the date of the termination following the change-in-control. For awards granted on or after March 14, 2018, the amount accelerated is equal to 100% of the at-goal payout.
- (3) For purposes of calculating the number of PBRSU shares vesting upon death and disability, the table uses the minimum payout, though the actual number of shares will be based on the actual performance at the end of the performance period.
- (4) Vesting for Price-Vested Options is not accelerated as a result of any termination and is only accelerated if (a) a change-in-control occurs during the first three years of the term of the Price-Vested Option, and (b) an involuntary termination of employment without cause or a voluntary termination of employment for good reason occurs.
- (5) As described in Note 8 to the "Summary compensation table" on page 50, we entered into an agreement that governs Ms. Smith's transition from Chief Financial Officer in connection with her retirement and provides for certain compensation related to that transition. The amount, vesting and timing of the compensation paid in connection with that agreement is not altered by the scenarios described in the table above and, as a result, is not included in the table. In addition, Ms. Smith is not entitled to "ICP Payments (Severance)" under her agreement.
- (6) In order to receive payments under the Excess Long-Term Disability Plan (Excess LTD Plan), the NEO must be enrolled in the widely available qualified long-term disability plan (Base LTD Plan). Mr. McNamara is not enrolled in this plan, therefore, would not receive any benefit.
- (7) Mr. Liu's Make-Whole RSUs vest in full in the event of death and disability and 50% of the total number of outstanding unvested Make-Whole RSUs vest upon involuntary termination without cause. In addition, in a change-in-control without termination of employment, there is no vesting or acceleration. However, if there is a change-in-control that includes an involuntary termination of employment without cause or a voluntary termination of employment for good reason, unvested Make-Whole RSUs would accelerate in an amount equal to the greater of (a) 50% of the total number of outstanding unvested Make-Whole RSUs, or (b) a pro-rata portion of the outstanding unvested Make-Whole RSUs based on the percentage of the performance period that has elapsed as of the date of the termination following the change-in-control.

Voluntary termination

None of our currently employed NEOs are entitled to payments and benefits for which the amount, vesting or time of payment is altered by their voluntary termination.

Involuntary termination

If a NEO was involuntarily terminated for cause, he or she would not be eligible for any of the Post-Termination Benefits described in this section. If a NEO is involuntarily terminated without cause, the potential Post-Termination Benefits generally consist of:

- Severance payments under our ICP; and
- Accelerated vesting of 50% of the at-goal payout of PBR SU awards, and forfeiture of the remaining 50%.

Our ICP provides for continuation of annual cash compensation (salary and average of three most recent Bonuses and Non-Equity Incentive Plan payments) over a period ranging from 12 to 24 months, paid in equal monthly installments. Each of the NEOs

other than Ms. Smith is eligible for 24 months of income continuation under the ICP. Payments under the ICP are conditioned on the executive officer releasing any claims against us, a non-solicitation covenant, and are subject to reduction if the executive officer becomes employed by specified competitors. In addition, a NEO who receives severance payments under our ICP also receives a \$30,000 allowance for outplacement services.

The accelerated vesting provisions of PBR SU awards are described in the notes under the “Outstanding equity awards at 2018 fiscal year-end” table.

Death

If a NEO dies while employed, the Post-Termination Benefits generally consist of:

- Vesting of PBR SUs, with payout occurring after the end of the performance period based on the actual performance at the end of that period; and

- Life insurance proceeds equal to three times the sum of the prior year’s annual base salary, plus the most recent Bonus and Non-Equity Incentive Plan payments, up to a maximum of \$3 million.

In addition, the NEO’s beneficiary will have the right to receive a payout, if any, under PSUs after the end of the performance period based on the actual performance at the end of that period.

Disability

If a NEO becomes totally and permanently disabled while employed, the Post-Termination Benefits generally consist of:

- Vesting of PBR SUs, with payout occurring after the end of the performance period based on the actual performance at the end of that period; and
- Monthly payments under the Excess LTD Plan if he or she also participated in the Base LTD Plan.

Our Excess LTD Plan, a self-insured unfunded plan, provides monthly disability income payments with respect to the portion of annualized salary and three-year average Bonus and Non-Equity Incentive Plan compensation above the Base LTD Plan annual

compensation limit (currently set at \$260,000) but not exceeding \$1 million. The Excess LTD plan replaces 60% of a participant’s eligible compensation. A participant who becomes disabled before age 65 is eligible to receive payments under the plan while he or she is totally and permanently disabled through age 65 (with a minimum of three years of disability payments) or death, if sooner. In addition, the NEO will have the right to receive a payout, if any, under PSUs after the end of the performance period based on the actual performance at the end of that period. Each of the NEOs other than Mr. McNamara participates in the Base LTD Plan and is eligible to receive payments under the Excess LTD Plan.

Change-in-Control

The following discussion describes the payments and benefits that are triggered by: (a) the occurrence of a change-in-control; and (b) the occurrence of a change-in-control that is followed, within two years after a change-in-control, by the NEO’s employment terminating involuntarily without cause or voluntarily with good reason (a material reduction in compensation or responsibilities or a required relocation following a change-in-control). In general terms, we will experience a change-in-control, as defined in our compensation plans, whenever any of the following events occur:

- 50% or more of our Board of Directors consists of persons who were not initially nominated or appointed by incumbent directors,

for which purpose any director who assumes office as a result of an actual or threatened contested election will not be considered as having been nominated or appointed by incumbent directors;

- Any person or group acquires 30% or more of our common stock;
- We merge with or into another company and our shareholders own less than 60% of the combined company; or
- Our shareholders approve an agreement or plan to liquidate or dissolve our company.

Our plans do not provide for any gross-ups for taxes due on any payments described in this section.

Without termination of employment

The consequence of a change-in-control to the NEOs without termination of employment is generally as follows:

- The deferred compensation balance in the EDCP will be paid in a lump sum as soon as allowed under IRC Section 409A, unless the Board of Directors determines not to accelerate payment of these amounts; and

- A double-trigger applies to PBRsUs or PSU awards, meaning that no vesting will accelerate upon a change-in-control unless, within two years after a change-in-control, an involuntary termination of employment without cause or a voluntary termination of employment for good reason occurs.

With involuntary or good reason termination of employment

In addition to the payments upon a change-in-control explained under “Without Termination of Employment,” if a NEO’s employment terminates involuntarily without cause or voluntarily with good reason (a material reduction in compensation or responsibilities or a required relocation following a change-in-control) within two years following a change-in-control, the double-trigger requirement will be met and the Post-Termination Benefits that may be received generally consist of:

- Severance payments under our ICP;
- Accelerated vesting of Price-Vested Options;
- For outstanding PBRsUs and PSUs granted before March 14, 2018, the greater of: (a) the amount the recipient would have been entitled to had the termination occurred without a change-in-control (which ranges from 50% to 100% of the at-goal payout depending on the award type and the participant’s age and years of service), or (b) a pro-rata portion of the at-goal

payout based on the percentage of the three-year vesting or performance period that has elapsed as of the date of the termination following the change-in-control. The balance of the awards is forfeited.

- For outstanding PBRsUs and PSUs granted on or after March 14, 2018, an amount equal to 100% of the at-goal payout.

We used the “greater of” calculation for PBRsUs and PSUs granted before March 14, 2018 to prevent a NEO from receiving less due to a change-in-control than they would have received as a result of a similar termination absent a change-in-control. In addition, we use the at-goal payout for calculating the pro-rata portion rather than actual performance to eliminate arbitrary results that could occur with a shortened performance period and in case calculation of actual or comparable performance metrics would be unfeasible following the change-in-control.

Pay ratio disclosure

As disclosed in the “Summary compensation table” on page 49, the fiscal 2018 total annual compensation for our CEO was \$17,204,069. We estimate that the fiscal 2018 total annual compensation for the median of all Target team members, excluding our CEO, was \$22,439. The median team member is employed part-time. The resulting ratio of our CEO’s total annual compensation to that of the median of all Target team members, excluding our CEO, for fiscal 2018 is 767 to 1.⁽¹⁾ The median team member’s fiscal 2018 total annual compensation was calculated in the same manner used to calculate the CEO’s compensation in the “Summary compensation table” on page 49.

To determine the median team member we used W-2 wages or their equivalent for the 2018 calendar year for team members employed as of February 2, 2019, the last day of fiscal 2018. For all permanent team members who were employed for less than the full fiscal year, we calculated a daily pay rate and then annualized their W-2 wages. Team members hired after December 31, 2018 do not have W-2s, so we used annual base salary for exempt permanent team

members hired after that date, and for non-exempt permanent team members hired after that date we multiplied their hourly compensation rate by the average hours worked by all U.S. non-exempt team members to approximate their annual compensation. These estimates and assumptions were used to annualize each permanent team member’s compensation without treating any part-time team member as a full-time equivalent. We included all non-U.S. team members in determining the median team member, treated in the same manner described above, except that for non-U.S. team members not paid in U.S. dollars, the foreign currency was converted into U.S. dollars using the applicable currency conversion rate as of February 2, 2019. For temporary or seasonal team members we used their W-2 wages without adjustments, except that if they were hired after December 31, 2018, they have no W-2s, so we used their gross earnings from our payroll records. This approach ensures that compensation of temporary or seasonal team members is not annualized.

(1) Since the CEO’s compensation for fiscal 2017 did not include an annual equity grant due to a shift in our annual grant timing, in last year’s proxy statement we disclosed the ratio of our CEO’s Annual TDC to the median team member’s fiscal 2017 total annual compensation. Calculated on that same basis this year, the CEO’s Annual TDC for fiscal 2018 was \$13,810,000, and the resulting ratio of our CEO’s Annual TDC to the median team member’s fiscal 2018 total annual compensation is 615 to 1. See page 37 for an explanation of how the CEO’s Annual TDC differs from the “Total” in the “Summary compensation table” on page 49. For more information about the annual grant timing shift, see page 37.

Director compensation

Our philosophy with respect to director compensation is to align the interests of non-employee directors with the interests of our shareholders and to provide market competitive compensation commensurate with the work required to serve on Target's Board. In developing compensation recommendations for directors, our external compensation consultant, Semler Brossy Consulting Group (SBCG), relies on its understanding of Target's business and compensation programs, as well as retail and general industry peer group benchmarking. Peer group comparisons are determined by use of compensation data obtained by management from publicly available proxy statements and analyzed by SBCG.

In November of each year, SBCG provides an independent recommendation for director compensation for the following year to the Human Resources & Compensation Committee for approval.

Beginning in fiscal 2018, the Human Resources & Compensation Committee approved an increase in total director compensation from \$260,000 to \$280,000 to situate compensation near the median of our combined retail and general industry peer groups. The companies comprising those peer groups can be found on page 46. The last time the Committee approved an increase to director compensation was in fiscal 2011.

General description of director compensation

Our non-employee director compensation program allows directors to choose one of two forms of annual compensation:

- a combination of cash and RSUs; or
- RSUs only.

Each form under the compensation program is intended to provide \$280,000 in value to non-employee directors as follows:

	Cash	RSUs
Combination (Cash and RSUs)	\$ 100,000	\$ 180,000
RSUs Only	\$ 0	\$ 280,000

The forms of annual compensation have the following terms:

- The cash retainer is paid pro-rata in quarterly installments. Directors may defer receipt of all or a portion of any cash retainer into the Director Deferred Compensation Plan. Deferrals earn market returns based on the investment alternatives chosen by them from the funds offered by the Target 401(k) Plan, including the Target Corporation Common Stock Fund.
- RSUs are settled in shares of Target common stock immediately following a director's departure from the Board. Dividend equivalents are paid on RSUs in the form of additional RSUs. RSUs are granted in March each year and vest quarterly over a one-year period.

The Lead Independent Director and Committee Chairs receive additional compensation for those roles, which is paid (a) in cash if the director elects a combination of cash and RSUs, or (b) in RSUs if the director elects all RSUs. Compensation for the Lead Independent Director and Committee Chairs is as follows:

Role	Amount
Lead Independent Director	\$ 30,000
Audit & Finance Committee Chair	\$ 30,000
Human Resources & Compensation Committee Chair	\$ 20,000
Nominating & Governance Committee Chair	\$ 15,000
Risk & Compliance Committee Chair	\$ 15,000
Infrastructure & Investment Committee Chair	\$ 15,000

New directors also receive a one-time grant of RSUs with a \$50,000 grant date fair value upon joining the Board, as well as a pro-rated portion of the annual compensation based on the date they joined the Board using the combination of cash and RSUs.

(1) Amounts represent the aggregate grant date fair value of RSUs and stock options that were granted in fiscal 2018, as computed in accordance with FASB ASC Topic 718, Stock Compensation. See Note 22, Share-Based Compensation, to our consolidated financial statements in our 2018 Annual Report for a description of our accounting and the assumptions used. Details on the stock awards granted during fiscal 2018, all of which are RSUs, are as follows:

Name	Stock awards

(2) None of the directors held outstanding RSUs that were unvested at fiscal year-end. The following directors held unexercised stock options (which were granted in years prior to fiscal 2013) in the amounts listed below:

Name	Stock options
Ms. Austin	15,687
Mr. Baker	5,570
Mr. De Castro	5,570
Mr. Salazar	3,601

(3) In addition to the amounts reported, all directors also receive a 10% discount on merchandise purchased at Target stores and Target.com, both during active service and following retirement. Non-employee directors are also provided with \$100,000 of accidental death life insurance.

(4) The following directors received additional compensation in fiscal 2018 for their roles as Committee Chairs and, in the case of Mr. Baker, as Lead Independent Director. The additional compensation is reflected in "Fees earned or paid in cash" and/or "Stock awards" based on the form of annual compensation selected by the director as described under the heading "General description of director compensation."

(1) This amount includes 7,437,593 PSU, RSU and PBRSU shares potentially issuable upon settlement of PSUs, RSUs and PBRSUs issued under our Long-Term Incentive Plan and Amended and Restated 2011 Long-Term Incentive Plan. The actual number of PSU shares to be issued depends on our financial performance over a period of time and the actual number of PBRSU shares to be issued depends on our total shareholder return over a period of time. PSUs, RSUs and PBRSUs do not have an exercise price and thus they have been excluded from the weighted average exercise price calculation in column (b).

Item two Ratification of appointment of Ernst & Young LLP as independent registered public accounting firm

The Audit & Finance Committee is directly responsible for the appointment, compensation, retention and oversight of the independent registered public accounting firm retained to audit our financial statements. The Audit & Finance Committee appointed Ernst & Young LLP as the independent registered public accounting firm for Target and its subsidiaries for the fiscal year ending February 1, 2020. Ernst & Young LLP has been retained in that capacity since 1931. In the process of carrying out its duties and determining the registered public accounting firm's independence, our Audit & Finance Committee:

- Reviews all non-audit services and engagements provided by Ernst & Young LLP, specifically with regard to the impact on the firm's independence;
- Conducts an annual assessment of Ernst & Young LLP's qualifications, service quality, sufficiency of resources, quality of communications, independence, working relationship with our management, objectivity, and professional skepticism;
- Conducts regular private meetings separately with each of Ernst & Young LLP and our management;
- Interviews and approves the selection of Ernst & Young LLP's new lead engagement partner with each rotation, which occurs every five years;

- At least annually obtains and reviews a report from Ernst & Young LLP describing all relationships between the independent auditor and Target; and
- Periodically considers whether the independent registered public accounting firm should be rotated and the advisability and potential impact of selecting a different independent registered public accounting firm.

The members of the Audit & Finance Committee believe that the continued retention of Ernst & Young LLP to serve as our independent registered public accounting firm is in the best interests of our company and its shareholders.

As a good corporate governance practice, the Board of Directors is seeking shareholder ratification of the appointment even though ratification is not legally required. Proxies solicited by the Board of Directors will, unless otherwise directed, be voted to ratify the appointment by the Audit & Finance Committee of Ernst & Young LLP as the independent registered public accounting firm for Target and its subsidiaries for the fiscal year ending February 1, 2020.

A representative from Ernst & Young LLP will be at the Annual Meeting and will have the opportunity to make a statement if such representative so desires and will be available to respond to appropriate questions during the Annual Meeting.

Audit and non-audit fees

The following table presents fees for professional services performed by Ernst & Young LLP for the annual audit of our consolidated financial statements for fiscal 2018 and 2017, the review of our interim consolidated financial statements for each quarter in fiscal 2018 and 2017, and for audit-related, tax and all other services performed in 2018 and 2017:

	Fiscal year-end	
	February 2, 2019	February 3, 2018
Audit Fees ⁽¹⁾	\$ 4,774,000	\$ 5,543,000
Audit-Related Fees ⁽²⁾	375,000	417,000
Tax Fees:		
Compliance ⁽³⁾	69,000	110,000
Planning & Advice ⁽⁴⁾	644,000	554,000
Total	\$ 5,862,000	\$ 6,624,000

(1) Includes annual integrated audit, statutory audits of certain foreign subsidiaries, consents for securities offerings and registration statements, accounting consultations, and other agreed-upon procedures.

(2) Includes benefit plan audits, accounting consultations, and other attestation services.

(3) Includes tax return preparation and other tax compliance services, including tax methods analysis and support.

(4) Includes tax-planning advice and assistance with tax audits and appeals.

The Audit & Finance Committee's current practice requires pre-approval of all audit services and permissible non-audit services to be provided by the independent registered public accounting firm. The Audit & Finance Committee reviews each non-audit service to be provided and assesses the impact of the service on the firm's

independence. In addition, the Audit & Finance Committee has delegated authority to grant certain pre-approvals to the Audit & Finance Committee Chair. Pre-approvals granted by the Audit & Finance Committee Chair are reported to the full Audit & Finance Committee at its next regularly scheduled meeting.

○ The Audit & Finance Committee recommends that shareholders vote **For the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm.**

Report of the Audit & Finance Committee

The role of the Audit & Finance Committee is to assist the Board of Directors in fulfilling its responsibility to oversee Target's financial reporting process. Management has primary responsibility for our consolidated financial statements and reporting process, including our systems of internal controls. Target's independent registered public accounting firm, Ernst & Young LLP, is responsible for expressing an opinion on the conformity of our consolidated financial statements with accounting principles generally accepted in the United States. In addition, the independent registered public accounting firm will express its opinion on the effectiveness of our internal control over financial reporting.

A copy of the Audit & Finance Committee Charter, which has been adopted by our Board of Directors and further describes the role of the Audit & Finance Committee in overseeing our financial reporting process, is available online at investors.target.com (click on "corporate governance" in the "investors" column, then click on "More about Board Committees"). All members of the Audit & Finance Committee satisfy the applicable audit committee independence requirements of the NYSE and the SEC and have acquired the attributes necessary to qualify them as "audit committee financial experts" as defined by applicable SEC rules.

In performing its functions, the Audit & Finance Committee:

- Met with Ernst & Young LLP, with and without management present, to discuss the overall scope and plans for their

respective audits, the results of their examinations and their evaluations of Target's internal controls;

- Reviewed and discussed with management the audited financial statements included in our Annual Report;
- Discussed with Ernst & Young LLP the matters required to be discussed by the applicable Public Company Accounting Oversight Board (PCAOB) standards; and
- Received from Ernst & Young LLP the written disclosures and the representations required by PCAOB standards regarding Ernst & Young LLP's independence, and discussed with them matters relating to their independence.

Based on the review and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit & Finance Committee referred to above and in the Audit & Finance Committee Charter, the Audit & Finance Committee approved that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended February 2, 2019.

Item three **Advisory approval of executive compensation (Say on Pay)**

Consistent with the views expressed by shareholders at our 2017 Annual Meeting of Shareholders, the Board of Directors has determined to seek an annual non-binding advisory vote from shareholders to approve the executive compensation as disclosed in the CD&A, tabular disclosures and related narrative of this proxy statement.

Our compensation programs are structured to align the interests of our executive officers with the interests of our shareholders. They are designed to attract, retain, and motivate a premier management

team to sustain our distinctive brand and its competitive advantage in the marketplace, and to provide a framework that encourages outstanding financial results and shareholder returns over the long term. Shareholders are urged to read the CD&A, which discusses in-depth how our executive compensation programs are aligned with our performance and the creation of shareholder value.

At our 2018 Annual Meeting of Shareholders, 94.9% of shareholder votes were cast in support of our executive compensation program for our Say on Pay proposal.

⊙ The Board of Directors, upon recommendation of the Human Resources & Compensation Committee, recommends that shareholders vote **For approval of the following non-binding resolution:**

“Resolved, that the shareholders approve the compensation awarded to the named executive officers, as described in the CD&A, tabular disclosures, and other narrative executive compensation disclosures in this proxy statement.”

Effect of item

The Say on Pay resolution is non-binding. The approval or disapproval of this item by shareholders will not require the Board or the Human Resources & Compensation Committee to take any action regarding Target’s executive compensation practices. The final decision on the compensation and benefits of our executive officers and on whether, and if so, how, to address shareholder disapproval remains with the Board and the Human Resources & Compensation Committee.

The Board believes that the Human Resources & Compensation Committee is in the best position to consider the extensive

information and factors necessary to make independent, objective, and competitive compensation recommendations and decisions that are in the best interests of Target and its shareholders.

The Board values the opinions of Target’s shareholders as expressed through their votes and other communications. Although the resolution is non-binding, the Board will carefully consider the outcome of the advisory vote on executive compensation and shareholder opinions received from other communications when making future compensation decisions.

Item four **Shareholder proposal to amend the proxy access bylaw to remove candidate resubmission threshold**

John Chevedden, 2215 Nelson Avenue, No. 205, Redondo Beach, CA 90278, who held more than \$2,000 of shares of common stock on December 12, 2018, intends to submit the following resolution to shareholders for approval at the Annual Meeting (the language below in the “Proposal” and “Shareholder’s Supporting Statement” is reproduced without alteration):

Proposal

Proposal 4 – Improve Shareholder Proxy Access

RESOLVED: Stockholders ask the board of directors to amend its proxy access bylaw provisions and any associated documents, to include the following change: A shareholder proxy access director candidate shall not need to obtain a specific percentage vote in order to qualify as a shareholder proxy access director candidate at any future shareholder meeting.

Shareholder's Supporting Statement

This proposal is important because a shareholder proxy access candidate might not obtain the currently required 25%-vote (and thus unfortunately be disqualified the following year under our current rule) even if he or she is better qualified than certain existing directors. Shareholders may simply believe that at the time of the annual meeting that the company is not ready for a proxy access candidate and hence may not support the candidate because the timing is not right.

A year later a majority of shareholders might determine that circumstances have changed due to mismanagement or economic downturn and that the timing is then right. Hence shareholders should be able to vote for such a highly qualified candidate.

The following are just a few of the scores of companies that do not require a proxy access director candidate to obtain a specific percentage vote in order to be a candidate in the following year:

Citigroup (C)

eBay (EBAY)

FedEx (FDX)

Goodyear (GT)

Home Depot (HD)

This proposal deserves added attention at Target since Target has 2 inside-related directors, 3 directors with more than 14-years tenure (which can erode director independence somewhat like having inside-related directors), we do not have the oversight of an independent Chairman of the Board while our CEO/ Chairman received the highest negative votes of any director in 2018.

Please vote yes:

Improve Shareholder Proxy Access – Proposal 4

Position of the Board of Directors

The Board believes that the candidate resubmission threshold contained in its proxy access bylaw continues to be appropriate and in the best interests of Target and its shareholders.

We adopted our proxy access bylaw provision in November 2015, and were among the first companies to do so, recognizing that it was an emerging governance trend that provided additional accountability to shareholders. We were informed by shareholder outreach and emerging best practices by early adopters when we approved our proxy access bylaw. Our candidate resubmission threshold that is the subject of this shareholder proposal currently prohibits a proxy access nominee who does not receive at least 25% of the votes cast in favor of his or her election from being named as a proxy access nominee again for the next two annual meetings.

The candidate resubmission threshold is designed to balance the rights granted to shareholders to nominate directors using proxy access with avoiding the distraction of multiple votes on a candidate who was not shown to be viable. The threshold uses 25% as the level deemed to be meaningful support that signifies a viable

candidate. Importantly, the candidate resubmission threshold does not prevent the nominating shareholder from nominating a different candidate the following year. Additionally, the candidate that failed to meet the candidate resubmission threshold is not permanently barred from serving as a proxy access nominee, as that person may be renominated after the next two annual meetings.

Candidate resubmission thresholds remain a common proxy access bylaw feature among large companies like Target. For S&P 100 companies, a substantial majority have candidate resubmission thresholds and the vast majority of those candidate resubmission thresholds feature the same 25% and two-year approach that we use.

We regularly engage with our shareholders regarding our governance practices. Based on those interactions, we have found that our proxy access bylaw has been viewed favorably by the vast majority of shareholders we have engaged with since it was adopted. The Board is committed to being accountable to shareholders and continuing to seek shareholder feedback on its approach as part of its ongoing shareholder outreach efforts.

🎯 The Board of Directors recommends that shareholders vote **Against the shareholder proposal to amend the proxy access bylaw to remove the candidate resubmission threshold.**

Questions and answers about our Annual Meeting and voting

1. What is the purpose of our Annual Meeting?

Our Annual Meeting provides shareholders with the opportunity to act upon the items of business described in the accompanying Notice of 2019 Annual Meeting of Shareholders. In addition, the Annual Meeting serves as a forum where our management reports on Target's performance and governance during fiscal 2018 and responds to questions from shareholders.

2. What is included in the proxy materials?

The proxy materials for our Annual Meeting include the accompanying Notice of 2019 Annual Meeting of Shareholders, this proxy statement and our 2018 Annual Report. If you received a paper copy of these materials, the proxy materials also include a proxy card or voting instruction form.

3. What is a proxy and what is a proxy statement?

A proxy is your legal designation of another person to vote the shares you own. The person you designate is called a proxy or proxy holder. If you designate someone as your proxy in a written document, that document also is called a proxy or a proxy card. Any proxy may be revoked at any time prior to completion of voting at the Annual Meeting by delivering either a proper written notice of revocation of your proxy or a later-dated proxy to our Corporate Secretary, 1000 Nicollet Mall, TPS-2670, Minneapolis, Minnesota 55403. We have designated three of our officers as proxies for the Annual Meeting—Brian C. Cornell, Cathy R. Smith and Don H. Liu. A proxy statement is the document that contains the information the SEC rules require us to provide when we ask you to sign a proxy designating individuals to vote on your behalf.

4. What is the difference between holding shares as a registered shareholder and as a beneficial owner?

If your shares are registered directly in your name with Target's transfer agent, EQ Shareowner Services, you are considered a registered shareholder with respect to those shares. If your shares are held through a broker, trustee, bank or other nominee, you are considered the "beneficial owner" of those shares.

5. Who may vote and what constitutes a quorum for the Annual Meeting?

Only registered shareholders or beneficial owners holding our outstanding shares at the close of business on the record date, April 15, 2019, are entitled to receive notice of the Annual Meeting and to vote. Target common stock is the only class of voting shares we have outstanding. Each share of common stock will have one vote for each director nominee and one vote on each item of business to be voted on. As of the record date, 515,511,026 shares of our common stock were outstanding.

We need a quorum to be able to hold the Annual Meeting. The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of our common stock outstanding on the record date will constitute a quorum. Proxies received but marked as abstentions and broker non-votes will be included in the calculation of the number of shares considered to be present at the Annual Meeting for purposes of determining whether there is a quorum.

6. How do I vote?

Depending on how you hold your shares, you have up to three options for voting in advance:

- **Internet.** If you are a registered shareholder or a beneficial owner holding shares through the Target 401(k) Plan, you may vote through the Internet by going to the website identified on your proxy card or Notice of Internet Availability of Proxy Materials (Notice) entering the Control Number found on your proxy card or Notice and following the instructions on the website. If you are a beneficial owner holding shares outside of the Target 401(k) Plan you may vote through the Internet if your broker, trustee, bank or nominee makes that method available by going to the website identified on your voter instruction form or Notice, entering the Control number found on the voter instruction form or Notice and following the instructions on that website. Internet voting is available 24 hours a day, seven days a week up to the deadline. The Internet voting deadline for shares held by a beneficial owner through the Target 401(k) Plan is 6:00 a.m. Eastern Daylight Time on June 10, 2019. For all registered shareholders or other beneficial owners, the deadline is 11:59 p.m. Eastern Daylight Time on June 11, 2019.

- **Telephone.** If you are a registered shareholder or a beneficial owner holding shares through the Target 401(k) Plan, you may vote by touch-tone telephone by either calling the toll-free number identified on your proxy card or, after viewing the proxy materials on the website provided in your Notice, calling the toll-free number for telephone voting identified on the website, and following the recorded instructions during the call. If you are a beneficial owner holding shares outside of the Target 401(k) Plan you may vote by touch-tone telephone if your broker, trustee, bank or nominee makes that method available by either calling the toll-free number identified on your voter instruction form or, after viewing the proxy materials on the website provided in your Notice, calling the toll-free number for telephone voting identified on that website, and following the recorded instructions during the call. Telephone voting is available 24 hours a day, seven days a week up to the deadline. The telephone voting deadline for shares held by a beneficial owner through the Target 401(k) Plan is 6:00 a.m. Eastern Daylight Time on June 10, 2019. For all registered shareholders or other beneficial owners, the deadline is 11:59 p.m. Eastern Daylight Time on June 11, 2019.
- **Mail.** If you are a registered shareholder or a beneficial owner holding shares through the Target 401(k) Plan, you may vote by completing, properly signing and mailing a written proxy card. If you are a beneficial owner holding shares outside of the Target 401(k) Plan you may vote by completing, properly signing and mailing a written voter instruction form. If you did not receive a proxy card or voter instruction form by mail, you must request a written copy of the proxy materials, which will include a proxy card or voter instruction form, by visiting www.proxyvote.com, dialing 1-800-579-1639 or emailing sendmaterial@proxyvote.com. If requesting a written copy of the proxy materials, please be prepared to provide your control number, which can be found in your Notice. Those shareholders voting by mail should return their proxy card or voter instruction form promptly to ensure it is received before the date of the Annual Meeting or, for participants in the Target 401(k) Plan, by 6:00 a.m. Eastern Daylight Time on June 10, 2019.

In addition, you may vote in person at the Annual Meeting if you follow these procedures:

- **In Person.** If you are a registered shareholder, you may vote in person at the Annual Meeting. If you are a beneficial owner you may vote in person at the Annual Meeting if you have obtained a legal proxy from your broker, trustee, bank or nominee. Please note that if you are a beneficial owner and request a legal proxy, any previously executed proxy will be revoked, and your vote will not be counted unless you appear at the Annual Meeting and vote in person or legally appoint another proxy to vote on your behalf. Registered shareholders and beneficial owners planning to attend the Annual Meeting and vote in person must follow the instructions provided in Question 12 “How can I attend the Annual Meeting?” on page 70.

7. What happens if I do not provide instructions on how to vote or if other matters are presented for determination at the Annual Meeting?

If you are a registered shareholder and return your proxy card without instructions, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board of Directors.

If you are a beneficial owner, you generally cannot vote your shares directly and must instead instruct your broker, trustee, bank or nominee how to vote your shares using the voting instruction form provided by that intermediary. If you do not provide voting instructions, whether your shares can be voted by your broker, bank or nominee depends on the type of item being considered.

- **Non-Discretionary Items.** If you do not provide voting instructions for any of the non-discretionary items at the Annual Meeting, your broker, bank or nominee cannot vote your shares, resulting in a “broker non-vote.” All items of business other than Item 2 (Ratification of Appointment of Ernst & Young LLP as Independent Registered Public Accounting Firm) are non-discretionary items. Shares constituting broker non-votes will be counted as present for the purpose of determining a quorum at the Annual Meeting, but generally are not counted or deemed to be present in person or by proxy for the purpose of voting on any of the non-discretionary items.
- **Discretionary Items.** Even if you do not provide voting instructions, your broker, bank or nominee may vote in its discretion on Item 2 (Ratification of Appointment of Ernst & Young LLP as Independent Registered Public Accounting Firm) because it is a discretionary item.

If you hold shares through a trust, whether your trustee can vote your shares if you do not provide voting instructions depends on the agreement governing the trust holding your shares. Voting for shares held in the Target 401(k) Plan is detailed in the following Question 8 “How will shares in the Target 401(k) Plan be voted?”.

As of the date of this proxy statement, we know of no matters that will be presented for determination at the Annual Meeting other than those referred to in this proxy statement. If any other matters properly come before the Annual Meeting calling for a vote of shareholders, proxy holders will vote as recommended by the Board of Directors or, if no recommendation is given, in their own discretion.

8. How will shares in the Target 401(k) Plan be voted?

This proxy statement is being used to solicit voting instructions from participants in the Target 401(k) Plan with respect to shares of our common stock that are held by the trustee of the plan for the benefit of plan participants. If you are a plan participant and also own other shares as a registered shareholder or beneficial owner, you will separately receive proxy materials to vote those other shares you hold outside of the Target 401(k) Plan. If you are a plan participant, you must instruct the plan trustee to vote your shares by utilizing one of the methods described on the voting instruction form that you receive in connection with your shares held in the plan. If you do not give voting instructions, the trustee generally will vote the shares allocated to your personal account in proportion to the instructions actually received by the trustee from participants who give voting instructions.

9. What items are being voted upon, how does the board recommend that I vote, and what are the standards for determining whether any item has been approved?

Item of business	Board recommendation	Voting approval standard	Effect of abstention	Effect of broker non-vote
Item 1: Election of 13 directors	FOR each Director Nominee	More votes “FOR” than “AGAINST”	No effect	No effect
Item 2: Ratification of appointment of Ernst & Young LLP as independent registered public accounting firm	FOR	Majority of shares present and entitled to vote ⁽¹⁾	Vote Against	Not applicable
Item 3: Advisory approval of executive compensation	FOR	More votes “FOR” than “AGAINST”	No effect	No effect
Item 4: Shareholder proposal to amend the proxy access bylaw to remove candidate resubmission threshold	AGAINST	Majority of shares present and entitled to vote ⁽¹⁾⁽³⁾	Vote Against ⁽³⁾	No effect ⁽²⁾

- (1) This amount must be at least a majority of the minimum number of shares entitled to vote that would constitute a quorum. “Shares present” includes shares represented in person or by proxy at the Annual Meeting.
- (2) If quorum cannot be established without including broker non-votes, then those broker non-votes required to establish a minimum quorum will have the same effect as votes “Against.”
- (3) For purposes of determining the level of support needed for a shareholder to be eligible to resubmit a shareholder proposal in a following year using Rule 14a-8 under the Exchange Act, the SEC uses a simple majority standard that compares the votes cast “FOR” to votes cast “AGAINST” an item (which gives abstentions “No effect”). Proxy advisory firms, such as Institutional Shareholder Services and Glass Lewis, also use a simple majority standard in determining the level of support for shareholder proposals.

An item of business will not be considered to be approved unless it meets the applicable “Voting approval standard” listed above. However, we believe in being responsive to shareholder input, and will consider whether there is majority opposition to management proposals or majority support for shareholder proposals (whether binding or non-binding) using a simple majority of more votes “FOR” than “AGAINST” in determining the level of support for purposes of the Board’s response.

10. May I vote confidentially?

Subject to the described exceptions, where the shareholder has requested confidentiality on the proxy card, our policy is to treat all proxies, ballots and voting tabulations of a shareholder confidentially.

If you so request, your proxy will not be available for examination and your vote will not be disclosed prior to the tabulation of the final vote at the Annual Meeting, except (a) to meet applicable legal requirements, (b) to allow the independent election inspectors to count and certify the results of the vote, or (c) if there is a proxy solicitation in opposition to the Board of Directors, based upon an opposition proxy statement filed with the SEC. The independent election inspectors may at any time inform us whether a shareholder has voted.

Voting instructions for shares held in the Target 401(k) plan will be confidential as required by the terms of the Target 401(k) plan administered by the trustee.

11. May I change my vote?

Yes. Even after you have submitted your proxy, you may change your vote at any time by mailing a later-dated proxy card or by voting again via telephone or Internet before the applicable deadline—see the instructions under Question 6 “How do I vote?” on page 68. If you are a registered shareholder, you can also change your vote by attending the Annual Meeting in person and delivering a proper written notice of revocation of your proxy or voting in person at the Annual Meeting.

12. How can I attend the Annual Meeting?

Only registered shareholders or beneficial owners of common stock holding shares at the close of business on the record date (April 15, 2019), or their duly appointed proxies, may attend the Annual Meeting. If you plan to attend the Annual Meeting, you must:

- Present a government-issued photo identification on the day of the Annual Meeting, such as a driver’s license, state-issued ID card, or passport, and
- Establish proof of ownership using one of the following permitted methods:

Guest

- You must be accompanied by a shareholder who pre-registered no later than June 7, 2019 by submitting a request to Target’s Investor Relations Department, providing proof of ownership and submitting your name as the shareholder’s guest.
- Only one guest is permitted per shareholder.

Authorized representative

- Where the shareholder is an entity or the shareholder is unable to attend the Annual Meeting, the shareholder may have an authorized representative attend on that shareholder’s behalf.
- A shareholder desiring to have an authorized representative attend on the shareholder’s behalf must pre-register that authorized representative no later than June 7, 2019 by submitting a request to Target’s Investor Relations Department, providing proof of the shareholder’s ownership, identifying the authorized representative and authorizing the authorized representative to attend the Annual Meeting on the shareholder’s behalf.
- Only one authorized representative is permitted per shareholder.

Any person who does not have identification and establish proof of ownership will not be admitted to the Annual Meeting.

We will decide at our sole discretion whether the documentation you present for admission to the Annual Meeting meets the admission requirements. If you hold your shares in a joint account, both owners can be admitted to the Annual Meeting if proof of joint ownership is provided and you both provide identification.

To expedite the admission process we strongly encourage all shareholders wishing to attend the Annual Meeting to pre-register by submitting their attendance request and proof of ownership to Target’s Investor Relations Department by email at investorrelations@target.com or by telephone at (800) 775-3110. Pre-registration requests will be processed in the order in which they are received and must be received no later than June 7, 2019.

13. How will the Annual Meeting be conducted?

Same-day registration and admittance will begin at 8:00 a.m. Eastern Daylight Time. We will have two separate lines, one for pre-registered attendees and one for same-day registering attendees. If you do not pre-register for the meeting, you should allow ample time for the same-day registration, as we do not intend to admit any attendees after the meeting starts. Both pre-registered attendees and same-day registering attendees must present their identification to be admitted to the Annual Meeting.

An Annual Meeting program containing rules of conduct for the Annual Meeting will be provided to attendees. The use of cameras, video and audio recording devices and other electronic devices at the Annual Meeting is prohibited, and such devices will not be allowed in the Annual Meeting or any other related areas, except by credentialed media. We realize that many cellular phones have built-in digital cameras and recording functions, and while you may bring these phones into the venue, you may not use the camera or recording functions at any time.

14. How may I access or receive the proxy materials, other periodic filings, key corporate governance documents and other information?

You may access our proxy statement and 2018 Annual Report, SEC filings, key corporate governance documents and other information in a number of different ways, free of charge:

15. What is householding?

We have adopted a procedure approved by the SEC called “householding.” Under this procedure, certain shareholders who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our annual report and proxy statement, unless one or more of these shareholders notifies us that they would like to continue to receive individual copies. This will reduce our printing costs and postage fees. Shareholders who participate in householding will continue to receive separate proxy cards. Also, householding will not in any way affect dividend check mailings.

If you and other shareholders with whom you share an address currently receive multiple copies of our annual report and/or proxy statement, or if you hold stock in more than one account, and in either case, you would like to receive only a single copy of the annual report or proxy statement for your household, please contact our Investor Relations Department by email, phone or mail using the information in the “Hard Copy” column of Question 14.

If you participate in householding and would like to receive a separate copy of our 2018 Annual Report or this proxy statement, please contact us in the manner described in the immediately preceding paragraph. We will deliver the requested documents to you promptly upon receipt of your request.

16. How are proxies being solicited and who pays the related expenses?

Proxies are being solicited principally by mail, by telephone and through the Internet. In addition to sending you these materials, some of our directors and officers, as well as management employees, may contact you by telephone, mail, email or in person. You may also be solicited by means of news releases issued by Target, postings on our website, www.target.com and print advertisements. None of our officers or employees will receive any extra compensation for soliciting you. We have retained Morrow Sodali LLC to act as a proxy solicitor for a fee estimated to be \$25,000, plus reimbursement of out-of-pocket expenses. We will pay the expenses in connection with our solicitation of proxies.

17. How can I communicate with Target’s Board of Directors?

Shareholders and other interested parties seeking to communicate with any individual director or group of directors may send correspondence to Target Board of Directors, c/o Corporate Secretary, 1000 Nicollet Mall, TPS-2670, Minneapolis, Minnesota 55403 or email BoardOfDirectors@target.com, which is managed by the Corporate Secretary. The Corporate Secretary, in turn, has been instructed by the Board to forward all communications, except those that are clearly unrelated to Board or shareholder matters, to the relevant Board members.

18. How do I submit a proposal or nominate a director candidate for the 2020 annual meeting of shareholders?

Shareholder proposals

Proposals by shareholders that are submitted for inclusion in our proxy statement for our 2020 annual meeting of shareholders must follow the procedures provided in Rule 14a-8 under the Exchange Act. To be timely under Rule 14a-8, they must be received by our Corporate Secretary by December 31, 2019. The contact information for our Corporate Secretary is Target Corporation, 1000 Nicollet Mall, Mail Stop TPS-2670, Minneapolis, Minnesota 55403.

If a shareholder does not submit a proposal for inclusion in our proxy statement but does wish to propose an item of business to be considered at an annual meeting of shareholders (other than director nominations), that shareholder must give advance written notice of such proposal to our Corporate Secretary, which notice must be received at least 90 days prior to the anniversary of the most recent annual meeting of shareholders. For our 2020 annual meeting of shareholders, notice must be received by March 14, 2020, and must comply with all applicable statutes and regulations, as well as certain other provisions contained in our bylaws, which generally require the shareholder to provide a brief description of the proposed business, reasons for proposing the business and certain information about the shareholder and the Target securities held by the shareholder.

Nomination of director candidates

Any shareholder who wishes the Nominating & Governance Committee to consider a candidate for nomination should submit a written request and related information to our Corporate Secretary no later than December 31 of the calendar year preceding the next annual meeting of shareholders. Under our bylaws, if a shareholder plans to directly nominate a person as a director at an annual meeting of shareholders, the shareholder is required to place the proposed director’s name in nomination by written request received by our Corporate Secretary at least 90 days prior to the anniversary of the most recent annual meeting of shareholders. Shareholder-proposed nominations for our 2020 annual meeting of shareholders must be received by March 14, 2020, and must comply with all applicable statutes and regulations, as well as certain other provisions contained in our bylaws, which generally require the shareholder to provide certain information about the proposed director, the shareholder and the Target securities held by the shareholder.

In addition, our bylaws provide that under certain circumstances, a shareholder or group of shareholders may include director candidates that they have nominated in our proxy statement for an annual meeting of shareholders. These proxy access provisions of our bylaws provide, among other things, that a shareholder or group of up to 20 shareholders seeking to include their director candidates in our proxy statement must own 3% or more of Target’s outstanding common stock continuously for at least the previous three years. The number of shareholder-nominated candidates appearing in any proxy statement cannot exceed 20% of the number of directors then serving on the

Board, but may be at least two directors. If 20% is not a whole number, the maximum number of shareholder-nominated candidates would be the closest whole number below 20%. Based on the current Board size of 13 directors, the maximum number of proxy access candidates that we would be required to include in our proxy statement is two. Nominees submitted under the proxy access procedures that are later withdrawn or are included in the proxy materials as Board-nominated candidates will be counted in determining whether the 20% maximum has been reached. If the number of shareholder nominated candidates exceeds 20%, each nominating shareholder or group of shareholders may select one nominee for inclusion in the proxy materials until the maximum number is reached. The order of selection would be determined by the amount (largest to smallest) of shares of Target common stock held by each nominating shareholder or group of shareholders. Requests to include shareholder-nominated candidates in our proxy materials for next year's annual meeting of shareholders must be received by our Corporate Secretary not less than 120 days and not more than 150 days prior to the anniversary of the date that Target distributed its proxy statement to shareholders for the preceding year's annual meeting of shareholders. For our 2020 Annual Meeting, notice must be received by not earlier than December 1, 2019, and not later than December 31, 2019. The nominating shareholder or group of shareholders also must deliver the information required by our bylaws, and each nominee must meet the qualifications required by our bylaws.
