- In accordance with our chemical policy Target is publishing our RSL for Textile products. This includes the following product:
- Clothing (entire garment/textile product including trims)
- Non-clothing (furniture, bedding, footwear, umbrellas, etc.) fabric only

ii. RSL Test Matrix (Chemical names, CAS#, Limits, Test Methods)

- The following table outlines the restricted chemicals, their limits as well as the required test methods. In order to be in compliance with Target's RSL requirements, restricted substances must not exceed the RSL limits.
- Target will continue to update the RSL on an ongoing basis.
