

# reconciliation of non-GAAP Adjusted EPS

annual, fiscal 2021 to present

To provide additional transparency, we have disclosed non-GAAP adjusted diluted earnings per share from continuing operations (Adjusted EPS). This measure excludes certain items presented below. We believe this information is useful in providing period-to-period comparisons of the results of our continuing operations. This measure is not in accordance with, or an alternative to, generally accepted accounting principles in the United States (GAAP). The most comparable measure is GAAP diluted earnings per share from continuing operations (GAAP diluted EPS). Adjusted EPS should not be considered in isolation or as a substitution for analysis of our results as reported under GAAP. Other companies may calculate Adjusted EPS differently, or not provide similar measures, limiting the usefulness of the measure for comparisons with other companies.
