Any forward-looking statements that we make this morning are subject to risks and uncertainties, the most important of which are described in our SEC filings.

In today's remarks, we refer to non-GAAP financial measures, including adjusted earnings per share, adjusted operating income and adjusted SG&A expenses.

Reconciliations of all non-GAAP measures to the most directly comparable GAAP measure are included in our financial press releases, financial presentations and SEC filings, which are posted on our investor relations website.
